## WILL CONTINUE P.G.E. RAILWAY TO PRINCE GEORGE

Reported Decision of Liberal  
Caucus at Nelson

Convention Started To-day  
With 250 Attending

Nelson, Sept. 28.—Finally, after innumerable ups and downs it is learned by The Times representatives that the Pacific Great Eastern Railway Destiny has been settled, and the line will be completed to Prince George. While no formal announcement has been given out by the Premier and his Ministers, still it is understood that this decision has been reached following several long caucuses of the party members on Wednesday.

The road will be operated all the way from Squamish to Prince George and the Ashcroft-Clinton cut-off will not be constructed, for the present at least.

### Character of Equipment

Light equipment will be used on the line, and the service will be curtailed, trains being run only when there is sufficient freight for a full load. Passengers will be accommodated through the operation of some form of light coaches, and gasoline motors may be utilized for motive power. Before the convention closes Friday night a formal announcement will be made of this policy, but for to-day the impression was conveyed that it would not be wise to open the rally with a statement regarding this important question.

J. A. Buckham, M.P.P. for Columbia, will be the chief party whip, and the assistant whip will be Alexander Paterson, member for Delta, provided he will accept the appointment.

Mr. Paterson did not wish to make a statement yet with regard to the matter.

### Two Hundred and Fifty Attend

When the convention opened this morning at 10 o'clock there were approximately 250 delegates present. Through the dereliction of the Vancouver special train near Penikese the majority of the delegates did not arrive until 11 o'clock this morning.

### Organize for Meeting

Nelson, Sept. 28.—Routine matters pertaining to organization of the convention engrossed the attention of the gathering this morning up to noon hour, when the Rev. D. D. Barrow, of M. A. MacDonald, K. C., of Vancouver, president of the British Columbia Liberal Association.

The convention was officially welcomed by Mayor C. P. McHardy of Nelson, Conservative candidate in the late by-election.

A credentials committee consisting of Charles McDonald, Revelstoke; Olaf Hanson, Omineca; Dr. K. C. McDonald, Vernon; F. R. Carrow, Victoria; G. M. Phillips and G. M. Murray, Vancouver; and Mrs. John Reid, New Westminster, seated the delegates.

While organization was in progress, the contingents from Rossland, Trail and Kaslo arrived, completing the lineup.

The coast delegates, who arrived by special train this morning, were delayed eight or nine hours by the wreck at Juliet when seven cars were derailed. Hon. E. D. Barrow, J. W. de B. Farrie, M. P., Elgin Munro, M. P., and ex-Mayor R. H. Gale, of Vancouver, were in the party. None of the passengers were injured.

At Juliet five cars left the track. Two feet more would have sent us over the embankment and down into the river," said Andrew Blight, J.P.

## DEBACLE IN EUROPE FEARED BY BANKER

Important to Keep Germany  
from Collapse, Sir James  
Simpson Urges

Exchanges Not Juggled, Noted  
British Financial Au-  
thority Says

Economists cannot tell just what will be the final outcome in Russia, Austria and Germany, if the money in these countries keeps on depreciating in value, according to Sir James Simpson, director and general manager of the Bank of Liverpool and Martins, Ltd., Liverpool, who is in Victoria to-day.

Sir James, who is one of the noted financial and world trade authorities of Britain, was asked whether these countries might have to wipe out their present currency altogether and start on a new basis.

"It is beyond the power of any economist to foretell what course economic events will take and what will be the ultimate end of the Austrian and Russian financial debacle," Sir James said to The Times to-day.

He declared that probably there would be a complete collapse of the economic and financial structure of

(Concluded on page 15.)

### ONE OF MEMBERS OF GREEK CABINET REPORTED KILLED

Constantinople, Sept. 28.—It is reported from Athens that one of the Ministers in the Cabinet of Premier Triantafyllakos was killed during the troubles there incident to the abdication of Constantine.

## BRITISH PAPERS PUBLISH CARTOONS OF CONSTANTINE

London, Sept. 28.—The second denunciation of King Constantine of Greece brings to tears here, as he has no friends among the British owing to his reputed German sympathies during the Great War. His exile is only provoking a fresh series of cartoons such as those in which he has been constantly ridiculed whenever he was conspicuous in the news.

A paltry personage vanishes from the stage, following Wilhelm Hohenzollern into obscurity and total discredit," summarizes the general press opinion. Nevertheless, it is regarded as more than unfortunate that settled government in Greece should be destroyed at this moment, adding serious complications to a situation already too complex.

The exact situation in Greece is still obscure.

### HEAD OF NAVY LEAGUE VISITS

Local Branch Officials Wel-  
come Sam Harris To-day

Entertained at Luncheon;  
Will Inspect Boys' Brigade

That in a maritime province the boys should be trained to love and follow the sea, and should have British ideals inculcated in their minds during their early youth, in which service to Canada the Navy League was playing a very great part, was the statement made by The Times this morning by Sam Harris, prominent Toronto business man and President of the Navy League of Canada.

Mr. Harris is accompanied by Mrs. Harris. They are delighted with British Columbia, and consider Victoria an ideal spot. It is their first visit to this province. They were amazed and delighted with the wonderful scenery and impressed with the resources of the western country.

This evening there will be a rally at the old drill hall, Menzies Street, at which the Boys' Naval Brigade will be inspected, and Mr. Harris will speak. The public is cordially invited, and light refreshments will be served. The function will begin at 8 o'clock.

At noon to-day a luncheon was tendered the visitor at Spencer's, at which Major W. H. Langley, president of the B. C. Branch, occupied the chair. Major Langley went to Vancouver to accompany the visitors to Victoria.

This afternoon the party were taken for a spin in Norman Yarrow's hydro-glider, the swiftest water craft in Canada. A visit was also paid to the dockyard, where the function will be the guest of honor at the Can- (Concluded on page 8.)

### PEASANTS STRIVE TO SAVE LAND

But Over 500 Parcels Will Go  
Into Tax Sale Saturday

Many Take Advantage of  
Council's 15-Year Plan

Over 500 parcels of property will go under the hammer when City Treasurer E. C. Smith opens the city tax sale at the City Hall Saturday morning, it was announced to-day.

A second group of properties will be included in the first group has been disposed of. The properties to be offered for sale first are those upon which unpaid taxes have not been consolidated, either by the owner or fifteen-year payment capital sum and upon which 1920 taxes are due. The second group, which will be much smaller than the first group, includes properties which have not been capitalized on the ten-year payment plan and the owners of which have not kept to the annual requirements of a fifteen-year payment plan.

Property owners who are far in arrears in their tax payments are seeking eagerly now for means of keeping their land out of the sale. Over 200 applications for permission to pay accumulated arrears under the fifteen-year payment plan recently launched by the City Council had been received at the Treasury Department up to noon to-day.

Much of the land which will be offered for sale on Saturday belongs to returned soldiers who were relieved from payment during the war but who have been unable to meet their tax obligations since the Armistice.

Two hundred lots included in the former Senator Macdonald estate on the Dallas Road known as Armadale will go into the sale. These lots are part of a subdivision scheme some time ago and form the only large unoccupied stretch in the old Beckley Farm estate, now James Bay.

### PRINCE WAS ASKED IF HE WOULD JOIN GREEK OUTBREAK

Athens, Sept. 28.—Prince Paul, King Constantine's youngest son, was aboard the training ship Helle in the Aegean when part of the Greek navy revolted. The battleship Lemnos sent a radio to the Helle asking the prince if he wished to join the new movement for national defence.

The radio operator of the Helle replied: "I salute you, brothers." The communication was cut.

The brother of M. Braghoutis, who was assassinated in 1920 and who was a royalist deputy, announced his adherence to the revolutionary cause.

### ITALIAN FORT GARRISON KILLED

Lightning Caused Big Explo-  
sion Near Spezia

No Estimate of Dead; Many  
Were Wounded

Spezia, Sept. 28.—The entire naval garrison at Falcocara Fort, near here, on the Gulf of Genoa, is believed to have been killed in an explosion caused by lightning which destroyed everything within a radius of ten miles. There are many hundreds of wounded.

Seventy bodies have already been recovered from the debris. The work of recovering additional dead is proceeding. No estimate has yet been made of their number.

Fifteen hundred tons of explosives were stored in the deep tunnels of the fort. The entire top of the hill on which it was located was blown away.

The wounded are being rushed to the hospitals here, all of which are already filled. Military forces have been assigned to the rescue work. All Fascist of the province of Genoa have been mobilized by their chiefs to assist the soldiers. The explosion occurred in a violent storm which damaged the crops and property of the inhabitants over large areas along the gulf.

Half-crazed with terror from fire and storm, the despairing population is being relieved through governmental care.

## TWELVE OFFICERS PUT IN CONTROL OF GREEK AFFAIRS

Paris, Sept. 28.—A Provisional Government consisting of twelve officers will rule Greece until a civil Government is established, according to a telegram from Athens, dated 6 o'clock this morning, and received by the Greek Legation here.

### NO CHANGE IN FRENCH POLICY

Declaration on Near East Af-  
ter Cabinet Meeting

Greek Defence of Thrace  
Causes Anxiety

Paris, Sept. 28.—France's policy in the Near East as laid down in the note she sent to Kemal Pasha jointly with the other Allies has not been modified by the overturn in Greece. It was announced after a Cabinet meeting to-day.

The French Government is greatly concerned over the reported determination of the new Greek Government to defend Thrace. Such a decision, it is expected, would be certain to react unfavorably on the Kemalists, and the dispatch of Greek forces to Eastern Thrace would almost certainly be followed by a belligerent move on the part of the Turks in Asia Minor and disturb the entire influence of the Government in the Near East.

At Smyrna, the French emissary to the Nationalists, is expected to see Kemal in Smyrna to-day or to-morrow. He will use the occasion to urge the Nationalists to try to keep the Nationalist leader from taking any action with regard to Thrace until the intentions of the Greek Government are clearly established.

## VALERA AND LYNCH PART COMPANY

Differences Between Irish In-  
surgent Leaders

Letters Read at Dail Eireann  
Sitting

Dublin, Sept. 28.—Eamonn de Valera, leader of the Irish republican forces, and Liam Lynch, chief of the Irish republican army, have parted company, according to extracts of correspondence seized by the Free State forces and read by General Mulcahy, commander of the national army, at the session of the Dail Eireann yesterday.

These extracts disclosed that there were serious differences of opinion between the two insurgent leaders. They showed that very unhappy relations have existed between the two for some time.

Dublin, Sept. 28.—Eamonn de Valera and his friends have "abandoned" according to The Freeman's Journal, and Liam Lynch, chief of staff of the republican forces, and his colleagues are in the public buildings, where the hopes of a national peace are dashed by this new event. It says that the republican leaders are forcing their followers to continue to the bitter end.

### GEORGE WILLING TO BE GREEK KING

Reported to Be Prepared to  
Occupy Post

London, Sept. 28.—Crown Prince George of Greece has indicated his intention to accept the throne, relinquished by his father, according to a message from authoritative sources.

(An Athens dispatch timed 12.10 p.m. yesterday said Crown Prince George would take the oath during the afternoon. Nothing later was reported to show that this programme was carried out.)

There is no word as to the whereabouts of Constantine, who is reported to be quiet under control of revolutionaries.

It is too early to estimate the direction of the revolution, but in authoritative circles it is looked upon as tending to support former Premier Venizelos.

### COMMITTEE IS IN CONTROL IN ATHENS

Athens, Sept. 28.—A "Provisional Revolutionary Committee" has been formed and has issued the following proclamation:

"An accord having been reached with the Triantafyllakos Government, which resigned, the Provisional Revolutionary Committee will assume power with the least possible delay.

### WISH NEW GREEK KING RECOGNIZED

Supporters of George Want  
Allies' Approval

London, Sept. 28.—The essential feature of the Greek revolution, according to the Athens correspondent of The Times, is the patriotic determination not to surrender Eastern Thrace. The revolutionists, he says, are determined to maintain the integrity of the homeland of a majority of the present generation of Greeks, and to prevent the extension of the Turkish invasion of the zone, suggesting growing contempt for the British veto and that the moment is approaching when the veto must be withdrawn absolutely or be followed by war.

Hamid Bey's threat to General Harrington that if the British should continue to fortify points within the zone they would risk attack by the Kemalists further indicates that the Turks are far from regarding seriously the British warning. How far Kemal Pasha himself is responsible for these latest developments does not appear.

### DELORME ASKS CHANGE OF VENUE

Montreal, Sept. 28.—Formal application for a change of venue in the case of Adelard Tremblay versus his brother-in-law, Rev. Adelard Delorme, in which the plaintiff is asking for the appointment of a curator of the estate of the deceased, was made by Leopold Houle, counsel for Delorme, who argued that the jurisdiction of the Montreal courts, but in the Quebec district, was promised within fifteen days.

## BRITISH SEND AIRMEN AND PLANES TO DARDANELLES

London, Sept. 28.—An important concentration of the British aircraft in the Near East is under way. An augmented squadron is en route from Egypt for Constantinople. It includes sixteen first class machines and 15 reserve planes.

Another squadron of about 40 machines left Malta with the fleet, and it is reported three more squadrons are in readiness for immediate departure if developments necessitate their services.

### KEMAL TO PLACE ALLIED NOTE BEFORE HIS ASSEMBLY

London, Sept. 28.—Mustapha Kemal Pasha is en route to Ankara to place the Allied note personally before the Nationalist Assembly. Reuters says it learns from information obtained through the Nationalist representative in Constantinople. It adds that it is unlikely, therefore, that any reply to the note will be received before next week.

## CONDITIONS ARE STATED BY TURKS

Yussif Kemal Carries Draft to  
Angora

Smyrna, Sept. 28.—Yussif Kemal Bey, the Nationalist Foreign Minister, has left for Angora with the draft of the Nationalists' reply to the Allied peace proposals. It is understood to embrace the following conditions:

1. Prior to the opening of the peace conference the Nationalists shall occupy all strategic points in the Near East.

2. All British forces now en route shall be recalled to the neutral zones.

3. The Nationalists shall occupy Thrace before the peace conference.

4. The Nationalists reserve the right to select certain other points in the Allied proposals.

5. The Nationalists object to the demilitarization of Thrace and Macedonia, but have no objection to fortification of the Dardanelles.

6. Soviet Russia, the Ukraine and all countries bordering on the Black Sea shall be represented at the conference.

7. In the event of acceptance of the foregoing conditions, the Nationalists agree to an armistice conference at Mudania with the Allied generals.

8. Three days after the Mudania conference the proposed peace negotiations shall begin at Smyrna. Isma Pasha, commander-in-chief of the western front, will represent the Nationalists at the armistice conference.

Two views may be taken of Kemal's intentions, it is stated. One is that under the cover of his cavalry he may be bringing up artillery and material and doing all he can to compel the British to fire the first shot. The less serious view is that he is truthful in his statement that he does not know where the neutral zone extends.

### LONDON PAPER SCORES PREMIER

Truth Says Invitations to Do-  
minions Ridiculous

Speaks Its Mind on Near East  
Tangle

London, Sept. 28.—(Canadian Press Cable)—"Anything more unconstitutional and more insulting to the British Empire than the invitation to the dominions to send volunteers for the Near East cannot be imagined," declares this week's Truth.

"With the exception of New Zealand, which seems pretty pugnacious and notably anxious to land again in Gallipoli, all the colonies are asking very naturally what all the bother is about."

"It is a difficult question to answer. Truth also publishes the following from a correspondent who, it says, may know something about the sentiment in the Dominion.

"Surely it is time we realized that 'Help the Mother Country' is played out in the Dominions. Everyone knows that Great Britain is not the Mother Country for either the French-Canadian or the South African Dutchman, nor for the matter of that, is it the homeland of a majority of the present generation of Canadians and Australians. They are first and foremost Canadians and Australians, taking their nationality from the land of their birth. Only as such are they likely to redeem the pledge under which their signatures of Severies them to the responsibilities entailed thereby."

"It is not a question of help the Mother Country at all, and the sooner this is recognized the better for all concerned. If they find the appeal of Saturday week was only crying wolf, the consequences will be far-reaching."

## PARTY IN GREECE WANTS REPUBLIC

Advocated by Section of  
Revolutionists at Work Form-  
ing Ministry

Athens, Sept. 28.—It is reported that a section of the revolutionary army is imbued with the idea of a republic and that the accession of King George may be accompanied by many difficulties.

An impressive pro-Venizelist demonstration occurred in the city last night. Thousands of persons, including some of the troops, paraded the streets singing and acclaiming Venizelos and waving portraits of the former Premier. The throng marched to the French Legation crying "Viva France."

The revolutionists have entered the city and occupied all the strategic points and the ministries.

### INDIAN FACTION SUPPORTS ANGORA

London, Sept. 28.—(Canadian Press Cable)—A Reuter dispatch from Allahabad, India, reports that a Non-co-operation party there publishes a list of 100 volunteers who have responded to an appeal to Moslems to do their best to help the Angora Government by money donations or personal service as a religious duty.

## CABINET DEBATED KEMAL'S REPLY

British Ministers Discussed  
Moves at Dardanelles

Opinions About Plans of Turks  
Differ

London, Sept. 28.—British Government circles this morning took a grave view of the situation at the Dardanelles, which was regarded as so critical as to overshadow the revolutionary developments in Greece. The opinion was expressed that there was a greater prospect of fighting between the British and the Turkish than at any previous time.

The Cabinet was convened this morning to consider a message from General Harrington, commanding the Allied forces in Constantinople, summarizing Kemal Pasha's reply to General Harrington's warning against violation of the neutral zone along the straits. The reply was considered unsatisfactory.

Two views may be taken of Kemal's intentions, it is stated. One is that under the cover of his cavalry he may be bringing up artillery and material and doing all he can to compel the British to fire the first shot. The less serious view is that he is truthful in his statement that he does not know where the neutral zone extends.

Heavy Responsibility. It is pointed out that General Harrington is laboring under tremendous responsibility. He has been told to do all possible to avoid war, but to use his own judgment regarding the necessity of fighting to maintain the British edicts. It is understood he has the full backing of the Government, which will support any action he takes.

Mustapha Kemal, in his reply, claims the right to cross the so-called neutral zone and to enter Eastern Thrace, where he claims the Greeks are killing Turkish inhabitants. He concludes by saying he hopes to avoid any conflict with the British.

## AREA INVADDED BY TURKS GROWS

Further Developments in Dar-  
danelles Region

London, Sept. 28.—It appears as though the serious warning to Turkey brought revolutionists to Greece from the Greek islands, according to news from Greece received here. The crews paraded the streets yesterday and demonstrated in front of the British and other legations, but no disorders are reported.

Salonica according to the same authoritative sources in Athens, is equally quiet and well regulated. The officers of the Constantinian regime have been given permission to continue their duties on the promise they will make no trouble.

The revolting elements in Salonica and Athens are working in close harmony with a good liaison, which is maintained by aeroplanes flying between the two cities and the islands of Mitylene and Chios.

### LEADERS OF GREEK REVOLUTION ARE USING PLANES

London, Sept. 28.—The Greek revolutionists are using aeroplanes to transport troops and supplies between the islands and the mainland.

Salonica according to the same authoritative sources in Athens, is equally quiet and well regulated. The officers of the Constantinian regime have been given permission to continue their duties on the promise they will make no trouble.

The revolting elements in Salonica and Athens are working in close harmony with a good liaison, which is maintained by aeroplanes flying between the two cities and the islands of Mitylene and Chios.

## TURKISH SITUATION DESCRIBED IN LONDON AS MORE CRITICAL

Three Meetings of British Cabinet To-day; Turks Hint  
At Military Action If Allies Continue to Fortify  
Dardanelles Points.

London, Sept. 28.—At the close of this afternoon's meeting of the Cabinet it was stated that the situation was regarded as increasingly critical. A third meeting of the Cabinet will be held this evening.

Athens, Sept. 28.—Colonels Plastiras and Gohalas, leaders in the revolution, entered Athens to-day at the head of their troops and were received with enthusiasm.

Constantinople, Sept. 28.—The Turkish Nationalists have notified the Allied high command that they will not tolerate the fortification of certain points in the so-called neutral zone along the Dardanelles. Continuation of the work of fortification will be looked upon by the Kemalists as warranting military action, their representative, Hamid Bey, informed the Allied commander, Brigadier-General Harrington.

### CONSTANTINE NOW REPORTED HELD PRISONER

Constantinople, Sept. 28.—Former King Constantine of Greece, who abdicated yesterday, is reported to be held prisoner by the revolutionaries in Athens.

## KING OUT WHEN THROWING AROUND HIM

Greek Revolutionists Threat-  
ened to Seize Constantinople

He Issued Message, Announc-  
ing His Abdication

Athens, Sept. 28.—King Constantine's abdication came after dramatic scenes, with the palace surrounded by an angry mob of revolutionists demanding his dethronement. It was not until the mob threatened to seize the person of the sovereign that an emissary appeared at the window of the palace and announced the abdication.

### Joined Revolution.

General Popoulas had previously been sent to meet with the revolutionists, but, finding his entreaties unavailing, joined their cause himself. The Government then sent a second envoy, but the mob was obstinate in its declaration that it would de throne the author of Greece's misery.

### Constantine's Message.

Constantine addressed the following message to the Greek people: "Yielding to the solemnly expressed will of the Greek people, I returned to Greece in December, 1920, and re-assumed my royal duties. I declared that I would respect the solemn oath that I would respectfully observe the articles of the constitution.

"This declaration corresponded both with my private desire and that of the Greek people, as well as with the international law of the country. Within the limits of the constitution I did everything humanly possible for the defence of the interests of the nation.

"To-day regrettable misfortunes have led our country into a critical situation, but Greece, as in so many other instances in the course of her centuries-long history, has overcome her difficulties and will continue on her glorious and brilliant path, provided she faces the danger with a united front, and is assisted by her powerful friends, and is assisted by the assistance of some friends, I have abdicated the royal power.

## OBITUARY RECORD

The death occurred at St. Joseph's Hospital this morning of Richard Brown, of Whittier Avenue, in his seventy-ninth year. The late Mr. Brown was born in Colchester, England, and was a silk "throwster," formerly of the Grayfriars Estate, and late manager of A. T. Stewart's Silk Works, New York. He is survived by his widow. The remains are resting at the B. C. Funeral Chapel from where the funeral will be held on Monday at 1:15, the cortege proceeding to St. Mark's Church, Bolakine Road, where services will be made at 1:30. Interment will be made at Ross Bay Cemetery.

The funeral of the late Martin Brinkman took place yesterday afternoon from the B. C. Funeral Chapel, the Rev. R. Connell officiating. There was a very large attendance of relatives and friends, and many floral offerings covered the casket. Two hymns were sung, "Nearer My God to Thee," and "Lead, Kindly Light." The following, all members of the Carman's Union, acted as pallbearers: J. Howcroft, F. W. Walter, E. B. Blake, V. W. Dempsey, A. W. Pionman.

and J. P. Torrance. Interment was made in Ross Bay Cemetery.

Funeral services over the remains of the late John Davy took place yesterday afternoon at the B. C. Funeral Chapel. The Rev. R. Connell officiated in the presence of a large gathering of friends. During the service the congregation sang the hymns "Rock of Ages" and "Forever With The Lord." Many beautiful floral tributes covered the casket and hearse. The British Campaigners were represented by Capt. Gordon Smith and others. There was also a delegation from the Sons of England. At the graveside the Masonic service was conducted by Worshipful Master C. Nickerson, of Victoria Columbia Lodge, No. 3, A. E. & M. The following acted as pallbearers: Rt. Worshipful Bro. A. A. Debeck, Wor. Bro. T. W. Crocker and D. Fowler, Bros. S. Homer, F. R. Lovell and Wm. Henry. Interment was made in Ross Bay Cemetery.

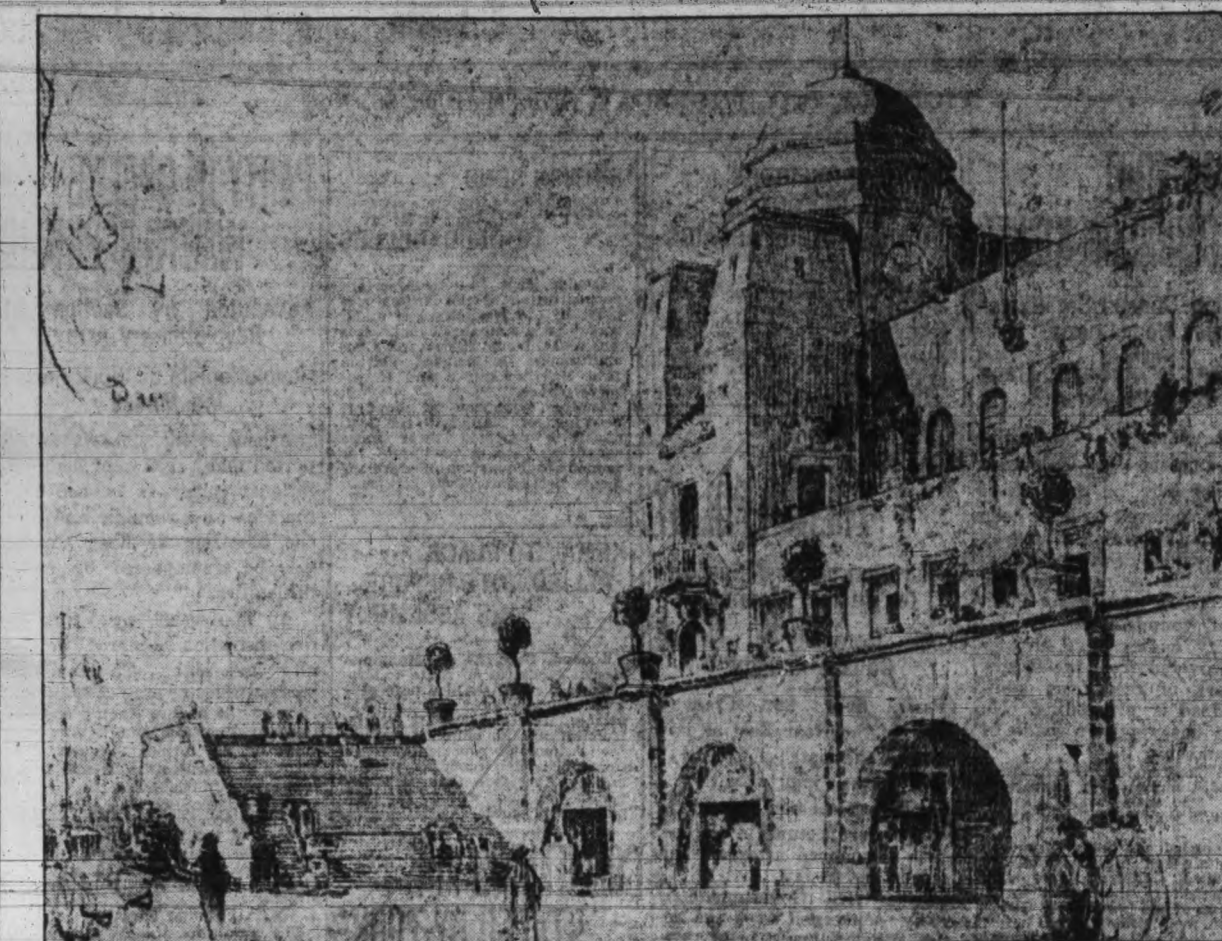

The funeral of the late Alice Mildred Smith, who passed away on Saturday evening, at the family residence, 118 Menzies Street, took place on Wednesday afternoon from the above address. Service was conducted by Rev. V. J. Clay, D. D., at 2:30 o'clock, during which one of Miss Smith's favorite hymns, "Safe in the Arms of Jesus," was sung. Mrs. A. Butler also sang very feelingly. "He Wipes the Tear From Every Eye." The many beautiful flowers were a tribute from her many friends. Three brothers, Reginald, Earl and Hedley, with Dr. Collier, A. Luck and A. Thorne, acted as pallbearers. The remains were laid to rest in Ross Bay Cemetery.

## CHANCE FOR B. C. CANNER

London, Sept. 25.—A London company is seeking the agency for Great Britain of a first class house packing canned salmon not already represented in England, according to a trade inquiry at the Canadian Trade Commissioner's office, 73 Basinghall Street, London.

## Main Entrance of Stadium at British Empire Exhibition

The magnificent national sports ground for the exhibition at Wembley Park, near London, England, from April to October, 1924, will be entered under a handsome facade. The grounds will accommodate nearly 150,000 spectators, and will be the largest recreation ground in the British Empire. It is in the interest of this great exhibition that the British Empire mission was in Victoria this week.

## ANOTHER BLOCK PLANNED IN CITY

Syndicate to Go Ahead With Building at Corner of Government and Fort

Marking a revival of building operations in the centre of the business section of the city, it was announced by F. B. Pemberton, of the firm of Pemberton & Son, this afternoon, that negotiations have been concluded for a long lease of the Canadian National property at the northeast corner of Government and Fort Streets, and that a start will immediately be made in the erection of a modern business block on the vacant site.

The erection of a building on this important site has been under consideration for some time, and with the leasing of the property for a long term of years the way has been cleared for an early commencement in construction.

The taxi company occupying the ground at the present time has, it is understood, given notice to vacate, which means that the syndicate behind the venture proposes to lose no time in commencing construction operations. Leases are already being signed up for the new building.

## VANCOUVER MEN WON ARMY CUP

Governor-General's Trophy Goes to 31st Battery

Ottawa, Sept. 25.—(Canadian Press)—The 31st Battery of Vancouver won the Governor-General's Cup for first place in general efficiency, field artillery, and the efficiency of personnel competition in the Canadian Artillery Association competitions, it was officially announced today.

These competitions, which were open to all field, heavy and siege batteries in Canada, were held at the training camps of Canada during the past summer.

## NEW HAVEN DEFEATED BALTIMORE ORIOLES

New Haven, Conn., Sept. 25.—Staggering one of the greatest finishes in a ball game ever seen in this city, New Haven, Eastern League champions for 1922, won the three-game series from Baltimore, International League pennant winners, by taking yesterday game, 6-5.

## TO BE CREMATED.

Vancouver, Sept. 25.—The will of William Greer, first Canadian Pacific shop foreman, who died here Monday, requests that no minister be engaged to conduct the funeral ceremony, that no flowers be sent, and that the body be cremated and the ashes scattered in Burrard Inlet at the turn of the tide.

## PRINCE TO HAVE MORE PONY ROOM

London, Sept. 25.—When Princess Christian removes to Hampton Court on the Thames, the largest royal palace in Great Britain, it is understood that the Prince of Wales will take up his residence in Cumberland Lodge, near Windsor Castle, which she is to vacate.

## NAVY LEAGUE HAS GREAT WORK AHEAD

Sam Harris, Dominion President, Addresses Local Branch

Consisting of this local occasion on which a Dominion president of the Navy League of Canada has toured Canada for the purpose of visiting the various branches from the Atlantic to the Pacific, Sam Harris, accompanied by Mrs. Harris, arrived in Victoria this morning and was accorded a hearty welcome by the Victoria branch of the League, which met at luncheon held at Spencer's at noon today.

Major W. H. Langley, Provincial president, presided and extended the official welcome. He complimented the League on having such an aggressive and competent leader as Mr. Harris.

"We have got the man who can expound and promote the principles of the Navy League. Before he gets through with the League a place will be found for the League and all it stands for in the country," said Major Langley.

"I am not an orator, but a business man, and I will say that if the Navy League is to be made a success it must be conducted on strict business lines," said Mr. Harris.

"Strive for Unity. Equity, liberty and security for all the people of Canada is the only way the country can progress. The principle is to strive for these and the unity of Canada," said the speaker.

The excellent work of the Navy League since it was brought into existence as a result of the war was pointed out. As the League worked for success in the war, so now it is working to help heal the scars of warfare on the seas.

## THE LEAGUE'S DUTY.

In addition to that the League has a great duty to perform in assisting to promote the training of Canada's youth along lines of usefulness in times of peace, and at the same time make them capable of safeguarding all they hold dear in case of any warlike development.

The speaker outlined some of the good work carried on by the League in the interest of seamen's dependents. The eastern institutes for sailors, requests that no minister be engaged to conduct the funeral ceremony, that no flowers be sent, and that the body be cremated and the ashes scattered in Burrard Inlet at the turn of the tide.

## Supremacy of the Seas.

"Supremacy of the seas means peace, prosperity and liberty for the Empire," said the speaker, who decided the abolition of the Canadian navy at a time when the country was rapidly taking its place in the forefront of the world's nations and therefore under greater obligation to protect its people and possessions.

Mr. Harris declared that Britain for over a hundred years had policed the seas at great cost, and at her own expense. It was up to Canada, now that she was in a position to do so, to share part of the responsibility.

## TWO SUPREME COURT JUDGMENTS

"Seabird" Case Again Subject of Litigation

Two judgments of Mr. Justice Murphy were filed in the Supreme Court this morning. One, in the hearing of *Sanich v. McFadden*, the highway dispute, allowed the claim of the plaintiff in part with the general costs of the action. The defendant *McFadden* was permitted to succeed in part, being allowed his costs to that extent. The plaintiff succeeded in respect to claims of the highway "as to the road on the east side of section 27 and failed as to the road along the southern boundary." The dispute was over a highway near the northern end of Elk Lake for some years in dispute.

## PUBLIC CAUSE OF MANY FIRES HERE, SAYS FIRE CHIEF

Asks People to Aid Department to Prevent Outbreaks

Hundreds of Victorians are unwittingly contributing to Victoria's annual fire loss by their failure to keep their premises free from inflammable material of various sorts, Fire Chief Vernon Stewart told the Rotary Club at its luncheon today.

The Fire Department cannot be expected to keep your business premises and homes clean and free from the menace of fire," the Chief observed. "We are assisting in the prevention of fire with a very complete system of inspectors but we need the co-operation of the public generally."

The Chief declared that a large portion of the fires that had occurred in Victoria recently were the result of carelessness. Many fires were caused by the spontaneous combustion of oily rags, gasoline, or paint, he said. Others were the result of defective wiring, defective chimneys and defective grates.

Others were caused by the close proximity of kindling and other inflammable material to stoves. Rubbish which piles up in cellars constitutes a continual fire menace, the Chief explained. All rubbish such as papers, straw and old clothes should be removed from basements and cellars, he added.

Smokers were responsible for many fires, Chief Stewart stated. To cigar and cigarette butts and lighted matches had been traced the origin of many disastrous outbreaks, he declared.

## DISCUSS CHURCH ORGANIZATION

Delegates to Methodist General Conference Hear Dr. Chown

Committee to Meet Anglican Delegates

Toronto, Sept. 25.—Rev. Dr. S. D. Chown, General Superintendent, laid before the Methodist General Conference this morning his proposals in regard to changes in organization of the church's work and an outline of some of the questions with which this Conference will have to deal. They include the appointment of a committee to discuss greater co-operation with the Anglican Church and provision for a more thorough organization of the men's brotherhoods in the different congregations.

The authorities of the Church of England, the Superintendent said, had last month approached the Methodist Church on the subject of a joint committee which would endeavor to lay the foundation for co-operation and unity among these and other Protestant denominations in this country. He had replied that there was no committee then existing in the Methodist Church with power to enter such conversations and advised that no start be made until after this Conference had an opportunity to record its position on the question.

## Committees

The Presbyterians have such a committee and the Congregationalists are about to appoint one, but both are awaiting action by the Methodist.

"That is for this conference to say," Dr. Chown continued, "whether we shall enter upon these conversations having in view the discovery of degree of agreement now existing and at what further points it might be possible to promote greater unity in the near future."

Referring to the Lambeth Conference appeal, he pointed to the stand taken by the Methodist Church in the resolution passed on a previous occasion recognizing that "the appeal indicates a solemn realization of the responsibility resting on all Christian communities to express the unity of the spirit in one body as well as in righteousness of life."

**For Hospital.**  
A bequest of \$150,000 has been left the church as a nucleus of a hospital fund with which to erect such an institution in Toronto.

The lack of co-operation among the men's brotherhoods was regretted by Dr. Chown.

Changes in the discipline recommended included provision for an executive committee to aid the General Superintendent in cases of emergency.

It was pointed out that the Methodist Church suffered greatly through lack of publicity. There was a growing demand among the people of the church for more information about activities of the church.

A vote expressing appreciation for the statesmanlike addresses of Dr. Chown, which would bring joy to Methodism from one end of Canada to the other, was passed.

## Boy! Page Mr. Einstein

THE shortest distance between a seller and a buyer is a straight line. If there is any shorter, let us page Mr. Einstein and ask him about it.

In advertising, the Daily Newspaper is the most direct line possible, and the customer you seek keeps the kinks out of it. He sees that he gets his newspaper at the earliest possible moment. He is not satisfied to wait until the postman delivers something that has been "directed" to him at his home address.

When the daily newspaper passes into the reader's hands, it is expected, welcomed and read. It has his interest before it even gets to him. He will complain loudly to the news dealer if an issue escapes him. He will stand in the heat and the cold while the news boy fumbles for change. When the delivery brings the daily paper to a home, it is taken in eagerly by someone.

Did anyone ever telephone your office to complain that your circular or form letter had not arrived? Have you ever noticed men waiting in line for the postman to deliver your printed matter? Have you ever seen the daily newspaper slipped off the desk or the supper table while second class mail is read to the family? Until you have, let us be honest and distinguish between "direct" advertising and printed matter "directed" to your address.

**NOMINATED.**  
Albany, N. Y., Sept. 25.—Governor Nathan L. Miller was re-nominated unanimously by the New York Republican State Convention here today.

## The Joy

### Of watching film-coats disappear from teeth

If you don't know these facts as yet, send now for this free test. All the world over careful people are brushing teeth in a new way. Millions of them in America alone. You see the results in prettier teeth wherever you look today. Now let your own teeth show them.

#### Combat the film

Your teeth are coated with a viscous film. You can feel it now. It clings to teeth, enters crevices and stays. No ordinary tooth paste can effectively combat it.

Film absorbs stains, making the teeth look dingy. It then forms cloudy coats. Tartar is based on film. It holds food substance which ferments and forms acids. It holds the acid in contact with the teeth to cause decay.

Germans breed by millions in it. They, with tartar, are the chief cause of pyorrhea. All of these troubles were constantly increasing under old brushing methods.

#### Then this came

Dental science then began a search for film combatants. Eventually two were found. One acts to curdle film, one to remove it, and without any harmful scouring. Able authorities proved these methods effective. Then dentists everywhere began to advise their use.

A new-type tooth paste was created, based

on modern research. The name is Pepsodent. In that modern tooth paste are embodied those two great film combatants.

#### Two other effects

Pepsodent brings two other effects which research proves essential. It multiplies the alkalinity of the saliva. That is there to constantly neutralize the acids which cause decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids. Thus Pepsodent, twice daily, gives manifold power to Nature's great tooth-protecting agents in the mouth.

#### What it means to a child

Pepsodent brings a new era in teeth cleaning. It means that children need not suffer what you may have suffered from your teeth. It means that boys and girls, as they grow up, need not have dingy teeth.

#### Do this

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

One week will bring to you and yours a new idea of what clean teeth mean. Cut out coupon now.

## BRITISH COLUMBIA TRADE IS GROWING

Canadian Manufacturers' Manager Speaks of Conditions

Wider Export Field; Spirit of Optimism

Winnipeg, Sept. 28.—Export trade is constantly increasing in British Columbia and the exports are being extended to new markets, according to J. E. Walsh, Toronto, general manager of the Canadian Manufacturers' Association, who is in Winnipeg after an extensive tour of the West. The development of the foreign trade, said Mr. Walsh, had been assisted materially by the Canadian Government Merchant Marine.

"There is a feeling," he said, "that the present trade should be extended and that some of the steamships that are now idle should be used in opening up new trade channels."

The lumber business at the coast is good, and there is a healthy activity, declared Mr. Walsh, who stated that in every city he had visited there was an optimistic spirit that was significant of good times ahead.

The membership of the association is steadily growing, particularly in the prairie provinces, said Mr. Walsh. In Manitoba, Saskatchewan and Alberta it is now 251, having been added in 1921 and 17 this year up to May 2.

**GREAT-RUSH FOR COAL IN TORONTO**

Toronto, Sept. 28.—So great is the clamor for coal that Property Commissioners Chisholm has opened up wickets in the main corridor of the City Hall for the receipt of orders for city coal. The city is selling the coal in ton lots at \$15.50.

## AUSTRALIANS TO VOTE IN DECEMBER

General Election Then in Commonwealth

Country Party Refuses to Support Hughes

London, Sept. 28.—(Canadian Press Cable)—The Federal Country Party of Australia has again refused to agree with the Nationalists, says a Reuter cable from Melbourne.

With the general election fixed for the early part of December, Premier Hughes has been trying to strengthen his position by reaching an understanding with the Country Party.

## TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove revivification if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old-time recipe improved by the addition of other ingredients.

While wavy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant. (Advt.)

## MORE BUILDING IN GREAT BRITAIN

Better Conditions Are Relieving Unemployment

London, Sept. 28.—(Canadian Press Cable)—Cheerful reports of the condition of the building trade since the stabilization of wages are borne out by the secretary of the operatives' federation, who states that building contracts which were held up since the war have now been released. They amount to the total value of £15,000,000, of which £5,000,000 relates to London contracts alone.

Unemployment in the building trades has been reduced by 75 per cent.

## NO VOTE ON LIQUOR IN 1923 IN ONTARIO

Toronto, Sept. 28.—The Ontario Government will not submit a referendum at the 1923 provincial election on the question of permitting the sale of beer and wine. Attorney-General Raney made an emphatic announcement to this effect in an address before the Methodist General Conference last night when he welcomed the conference to Toronto on behalf of the province.

The Attorney-General referred to the different occasions on which the people of Ontario had voted in favor of prohibition and stated that "it would be an impertinence on the part of the Government to submit the question again to the people who had so recently expressed themselves."

## HAS NEVER FELT THE RHEUMATISM

Since Taking "Fruit-a-tives" The Famous Fruit Medicine

P. O. Box 123, Parraboro, N. S. "I suffered with Rheumatism for five years, having it so badly at times I was unable to get up."

I tried medicines I saw advertised, and was treated by doctors but the Rheumatism always came back.

In 1916, I saw in an advertisement that "Fruit-a-tives" would stop Rheumatism and took a box, and got relief; then took "Fruit-a-tives" right along for about six months and I have never felt my Rheumatism since."

JOHN E. GILDERSON.

50c a box, 6 for \$2.50, trial size 25c.

## POISONOUS MEAT SEIZED IN CALGARY

Potted Food Was Put Up by London Firm; People Warned

Calgary, Sept. 28.—Inspector Hibbs, in charge of the Dominion Health Inspection Office here, to-day announced that he had seized 410 glass containers of potted meats, exported to Canada by a London firm. The meats, which comprise many different varieties, reveal, under analysis, strong indications of the presence of Bacterium Botulinus, which is extremely poisonous. The shipment, the whole of which has not yet been rounded up, was in the hands of local jobbers and part had been distributed to retail grocers. It is believed that none of the product has got into the hands of consumers, although as a special precaution, Inspector Hibbs has made a public announcement warning the general public against taking chances with goods bearing the condemned brand.

## LEIPZIG MOVIE HOUSE RAIDED

Communists Seized Film Depicting Chaotic Conditions in Russia

Leipzig, Sept. 28.—The audience in a suburban motion picture theatre was given a taste of real wild west action yesterday when a score of armed men, believed to be communists, raided the house and confiscated a film depicting alleged chaotic conditions in Russia and the consequences of the military power of the Soviet Government.

The raiders, all of whom were about thirty years old, wore German military blouses.

## WEALTHY FARMER FINED FOR BEGGING

Unusual Police Court Case in Picton, Ontario

Picton, Ont., Sept. 28.—A wealthy farmer was arrested here for begging, and in police court yesterday it was shown that he had \$50,000 in cash and first class mortgages. Magistrate Williams fined him \$100 and costs, and compelled him to leave with the chief of police \$50 in cash to reimburse contributors to his pretences.

#### MAN KILLED.

Hoquiam, Wash., Sept. 28.—T. R. Tilly, 51 years old, superintendent of a shingle mill here, was killed yesterday when his automobile slipped over the gravelly bank of the Hoquiam River.

#### HIS OWN VICTIM

Kind Lady—"What caused you to adopt this way of living?" Hobbs—"It was a saving disposition, ma'am. I got into the habit of saving myself as much work as possible, and I couldn't quit."—Boston Transcript.

MRS. JOSEPH BEAUDRY

Dacre, Ontario—"I am more than pleased with Dr. Pierce's Favorite Prescription. I was run-down and so nervous that I could not even stay in the house alone in the day time. I tried every kind of medicine I heard of, but got no results. One of my friends advised me to take Dr. Pierce's Favorite Prescription, said that it would cure me, and it did. After taking four bottles I felt like a new woman. I also know it is the very best medicine for a woman to take while rearing a family."—Mrs. Joseph Beaudry, R. R. No. 2.

Obtain this famous Prescription now at your nearest drug store, in tablets or liquid, or write Dr. Pierce, President Invalids' Hotel in Buffalo, N.Y., for free medical advice.

## DR. CHOWN SPOKE OF CHURCH'S MESSAGE

Superintendent Delivered Address at Methodist General Conference

Church: "A Living Soul Unto the Nation"

Toronto, Sept. 28.—"The chief question that confronts this conference is: How shall Christian Methodism adjust its message so as to render the greatest possible service to the Dominion and the world at large?" said Rev. S. D. Chown, General Superintendent, at yesterday's opening session here of the General Conference of the Methodist Church in Canada.

"I have already suggested certain changes in organization to this end, but these must be considered as matters of altogether secondary importance compared with the spiritual interests of which I shall now speak. I am thinking now of how our church may so express her convictions as to become a living soul unto the nation. The destiny of Protestantism and the success of its mission in religion in Canada will be influenced by the response we make to that question."

"Indeed, it is not too much to say that the years just before us will be so full of challenge to spiritual adventure that the answer of the Christian church at large will be decisive in the religious history of the world. It will determine whether civilization shall enter upon a long and unproductive winter which may carry the world back into barbarism, or whether there shall be a new springtime in which will bud and blossom those gracious and vital energies whose full bloom shall be named the Kingdom of God."

"First then let me say that our message must be noted for its openness to truth. It is fatal to the influence of the church, particularly in this new era, if it is to create the impression that, like caged lions, its ministers move within bars of intellectual servitude. The founder of Methodism believed that forces that thought is essential to intelligent spiritual growth; that its repression is mentally miasmatic and breeds revolution. The church of the twentieth century cannot be the same as the church of the first century. It ought not to be, because it is a living organism, and must continually rise to higher self-realization."

Close to Sun

"In her practical and spiritual wisdom, Methodism has always cared more for the centripetal force that holds its theological system close to the Sun of Righteousness than the centrifugal force that would send it careening into the uncertain depths of speculative inquiry. We gladly yield to the gravitational attraction of the Kingdom of God and hold every thought in captivity to its redemptive work. If our purpose is continuously to turn her steadfast convictions into sublime motives to holy living. She asks no man to slay his hand in order that he may satisfy his heart, but she leads heart and mind together into a profoundly satisfying contact with the realities of personal religion."

Methodism believes in freedom in the study, the atmosphere of freedom in the pulpit, but more strenuously than anything else she believes in tremendous concentration upon the things that really matter most. This combination of outlook and endeavor is essential to a true conception of what our message should be at this time."

Wisdom

"Equipped with these salutary conditions for progress, we lift our prayer to high Heaven at this potent hour for wisdom to discern the times that we may know assuredly what our Israel ought to do."

"By the times we do not mean simply the passing days, but the current of thought and the throbbing impulses to action which play upon contemporary life and character. To fulfill our mission as a church we must clearly discern the influences which are putting their stamp upon the hearts of the people who occupy our pews in this crisis hour of history."

Passion For Service

"When John Wesley was in Georgia his scholarship, his zeal and devotion were similar to those which he possessed after his heart was 'strangely warmed,' but subsequent to that event every word was freighted with unctious, inspired with love, and empowered by faith. His passion for service so wrought itself into the fibre of the British people that the race as a whole came into a new birth through his spiritual message, and was saved from a bloody revolution."

"If Divine Providence does not give us such masterful leaders to lead us, the fact itself be a call to each one of us to follow as closely as possible in the footsteps of greater men. Let us preach as they did, not as men trying to make out a case, but as men having a burning passion for a great cause."

"Thomas Chalmers said that when God has a great work to do he lets out the contract to men of faith. Let us live so that he can trust us to do a greater work than ever."

No Antagonistic Deber.

"Men who are evidently ignorant of the inner spirit of the churches of Christ are giving them many exhortations in contemporary literature not to spend their spiritual substance in controversy with each other about creeds. Whatever ground for apprehension there might be elsewhere, such advice to Methodism is surely misdirected energy. We do not indulge in antagonistic debate with other religious bodies. We are not uneasy about our theology. It is experimental, being the fruit of the inductive method. It rests upon facts authenticated to consciousness by the Spirit of God. It has grown out of experience, and therefore has special fitness to grow experience. We are content without controversy to let it make its own appeal to every man's conscience in the sight of God."

Our Creed is Big Enough to Hold

"Our creed is big enough to hold all the good contained in modern cults and more over."

Moral Factor

"Our highest duty in the preservation of peace is to implant ideals commensurate with the Gospel of the Kingdom of Heaven. The trend of events shows it is the will of Almighty God that the Church of

THE BETTER VALUE STORE LIMITED  
1420 DOUGLAS ST.

Jesus Christ should be spiritualized upon higher altitudes, and in the midst of wider horizons of duty than ever before. He is no Christian to-day who is not a citizen of the world at large. Surely if the war has taught us anything it is the strength of the moral factor in life. It is this that must make a new Heaven and a new earth. To the Church of Jesus Christ has been committed the supreme task of making moral ideals dominate humanity. Canada can congratulate herself that such a large proportion of her public men are committed in their private lives to Christian principles. But it is for the followers of the Prince of Peace to bring His ideals to dominate the great mass of the people so that the state may be really Christian at its very heart. To this high calling we exhort all our people.

## Babies Thrive On Pacific

A graduate nurse tells us she has used Pacific Milk for infants with splendid results. Its uniform quality makes it possible to regulate the food properly and its high content of butter fat is very nourishing and seems to be easily assimilated by delicate digestive organs. Any number of mothers have written to the same effect, only they are less formal in their statements, some going so far as to say Pacific Milk is the only food their children could digest.

## MARKING TIME.

Conditions in Greece are altogether too complex to permit of intelligent speculation in respect of the effect which the revolution may have upon Allied policy in the Near East, or upon the reply of Kemal Pasha to the British ultimatum.

In the meantime the Ankara Government has submitted eight conditions upon which the Nationalist dictator would be prepared to enter into arrangements for an armistice and participate in a peace conference. Some of these conditions might be accepted by Great Britain; but it can be taken for granted that most of them will permit of no argument. To what extent the Nationalist reply may be employed as a basis for further negotiation will not be clear until the British Government has considered it in conjunction with events in Greece.

What is perhaps the most important point in the crisis is the fact that Kemal Pasha may be pacified in his attitude towards British occupation of the neutral zone of the Dardanelles by representations which the French emissary will make to him during the day or early to-morrow. There is no definite assurance that France would support Britain with troops in this particular area in the event of an overt act on the part of the Kemalists; that may depend upon the value which she places upon the Entente.

It can still be said that Kemal Pasha has lost his opportunity. Temporary success might have been his if he had launched his attack ten days ago. If he considers for one moment that he can force his way to Europe at this date he is nursing a delusion.

## MR. SAVAGE'S LETTER

In his recent open letter to the Premier of this Province Mr. William Savage declared that the "Prohibition people refuse to accept" the vote which was taken in 1920 as either "fair or final on the subject" of the liquor question. He amplifies his argument in the following manner:

The Prohibition Act, discarded by non-enforcement, both by municipal and Provincial authorities, amends in 1920, but without opportunity to test the benefits of the amendments, was pitted against a question only—not a statute. The question was glorified to mean anything and everything. It was misunderstood and what was hoped from it never found its way into the legislation which followed. If the people had known that the present act and conditions would result from the plebiscite they would never have voted to repeal prohibition.

Were it not for the fact that Mr. Savage has the advantage of a legal training we should be prepared to take his suggestion of non-enforcement as the result of superficial observations and put it with the fair average of general opinion formed in similar manner. But he knows perfectly well that a government of archangels would be powerless to enforce a law which fully fifty per cent. of the people worked overtime to defeat.

Liquor under the defunct statute was obtainable only upon a medical prescription. The health of the people became alarmingly poor in a short space of time and the number of prescriptions issued from month to month suggested the desirability of obliging the use of more faith and less alcohol. Consequently the issue to the various privileged professions was limited to a certain amount and an order for more than eight ounces had to be accompanied by a statutory declaration in which the medico would swear that his patient's condition required more than the minimum amount issuable upon an ordinary prescription. If we remember rightly this added safeguard was approved by the advocates of prohibition at the time. And in view of the fact that liquor could be obtained only for medicinal purposes

what other course could have been taken short of converting the Province into a bone-dry state? Which brings us to a point of inquiry as to how Mr. Savage would have dealt with a sanction in law which actually created no more and no less than the state of prohibition for which the people voted in 1916.

Mr. Savage complains that the inquiry put to the people in 1920 asked a decision between the Prohibition Act and a question—not a statute—that was glorified to mean anything and everything. He says it was misunderstood and what was hoped from it never found its way into the legislation which followed. Few people will take this version of the circumstances with any degree of seriousness. A spirited campaign preceded the taking of the plebiscite and an intelligent public expressed its opinion. Will Mr. Savage suggest that the majority or any part of it has objected to the principle and general operation of the measure which its vote made law?

Long before the meeting of the Legislature at which the Liquor Control Act became law this newspaper urged the calling of a conference of all interested parties in the hope that co-operation—judged possible under a recognition of majority rule—might assist the elected representatives of the people to frame a measure that would avoid the anomalies of the old Act and result in a workable law. Mr. Savage will recall that the organization over which he presided at that time ridiculed the suggestion.

We repeat that it is the duty of every shade of public thought to assist the Government in enforcing a law that must of necessity have large numbers of opponents. To ignore the will of the majority is to challenge our system of government.

## OUR RAILWAYS.

When The Montreal Star seeks to convey the impression that the British Government has had sufficient practical experience in running the railways of the Motherland to remove all possibility of state ownership and control in the future it seems to forget that when the Government took charge during the war all the directors and managers were retained and their services employed to the limit.

This experience in abnormal times cannot be advanced as an argument in favor of private ownership. What is true of Great Britain is similarly true of the United States. In both countries the Administration required unanimity in the working of every public utility involved in operations connected with its war effort. And because it was generally understood that public operation would cease after peace should have been established no attempt was made either in Britain or in the Republic to the South to bring about such co-ordination as would have preceded such a policy as has been adopted by this country.

Canada had no alternative but to take over the railways. They failed and imposed financial burdens upon the taxpayers. The Canadian Pacific Railway is in a class by itself. It has succeeded brilliantly. Business capacity, gifts of land, and the very nature of its inception combined to guarantee that success. But, to quote the Prime Minister, "the railways are ours. We could not dispose of them if we wanted to. Now, as a Government, we are going to see that these roads get the opportunity to succeed."

We agree with The Toronto Globe that "the country ought not to consider getting rid of them." Our contemporary rightly argues that "they were to some extent forced upon us by their misfortunes under private ownership, but now that we have them we should regard them as an asset and an opportunity rather than as a burden and a difficulty. The croakings of opponents of public ownership must be met by enthusiasm. Adopting a vigorous policy the Government will have plenty of backing, in the shape not only of political support, but of increased business for the National Railways."

All of which emphasizes the necessity of obtaining the services of a guiding spirit who is capable of getting new business and of evolving an administrative policy that will lift the people's property on to a higher

level of commercial enterprise. The annual deficit is a staggering load and may well discourage the most optimistic railway brain. But it is all the more reason why the Government should pay a sufficiently large salary and go far enough afield to get the right man. If Canada cannot provide one there must be no hesitation in crossing the line. Be he Canadian or American he will be cheap at five times the salary of a Prime Minister if he shall succeed in putting the railways on a sounder basis.

## NOTE AND COMMENT

Mustapha Kemal Pasha's reply to the Allied note snacks of the Russian idea of "national aspirations."

The Manitoba Free Press is of the opinion that the officials of the Pensions Board have turned themselves into bureaucrats. It defines a bureaucrat as one who "is interested in the documents of the case and not in the human being behind the case." Card-indexing "fragments from France" differs from the compilation of a real estate register.

It is considered as highly probable in British official circles that Russia will be invited to take part in the peace conference at Smyrna—or wherever it may be held. And why not? Put some sense of obligation upon her and let her default at her own risk and peril.

## CHIROPRACTORS APPEAL BY WAY OF TEST HEARING

Liquor Control Board Also Files Appeal in October County Court List

Although the October trial list in the County Court includes only nine causes in all, yet the list is among the most interesting brought forward this year. The hearing of Rex vs. Thomas Mercer, an appeal by the defendant, a local practitioner of chiropractic, is among the first cases of its kind in the local courts. Mr. Mercer, in company with other chiropractors, was fined \$50 in the city police court on a charge of unlawfully practicing medicine for hire, without being registered as required by the Medical Act.

This case, it is stated, is to be a test case in the chiropractor problem. C. L. Harrison will act for the Crown, and Capt. Ian MacKenzie, of Vancouver, for the appellant.

The first of a series of appeals filed by the Liquor Control Board, will be heard in the action of Rex vs. George Nicholson, comprising four causes, and Rex vs. Jack Kershaw. In these five cases the Crown is appealing from a police court acquittal of every public utility involved in operations connected with its war effort. And because it was generally understood that public operation would cease after peace should have been established no attempt was made either in Britain or in the Republic to the South to bring about such co-ordination as would have preceded such a policy as has been adopted by this country.

Canada had no alternative but to take over the railways. They failed and imposed financial burdens upon the taxpayers. The Canadian Pacific Railway is in a class by itself. It has succeeded brilliantly. Business capacity, gifts of land, and the very nature of its inception combined to guarantee that success. But, to quote the Prime Minister, "the railways are ours. We could not dispose of them if we wanted to. Now, as a Government, we are going to see that these roads get the opportunity to succeed."

## ONTARIO CHURCH DECLARES SUPPORT OF GREAT BRITAIN

London, Ont., Sept. 28.—Believing that some action should be taken by Canada to give Great Britain full support in any crisis which may arise in the Near East, the Provincial Synod of Ontario of the Church of England in Canada, in session here last night, passed the following resolution: "The Provincial Synod, now in session at London, desires to go on record as expressing its sense of loyalty and devotion to the Mother Country and strongly urges the Dominion Government to assure the Government of the Mother Country of loyal co-operation in whatever crisis may demand it."

## AFGHANISTAN AND INDIAN OFFICIALS CONFER

London, Sept. 28.—(Canadian Press Cable)—Major Humphreys, a Minister to the Government of the Afghanistan province of Kabul, will arrive in Simla, India, to-day to confer with the Government there, according to a Reuters dispatch. On both sides of the Afghanistan border the Moslems are showing much interest in the Turkish question, which necessitates watchfulness and caution on the frontier.

The international position in India is quiet, and there are signs of the Punjab unrest subsiding. There are excellent crop reports in consequence of the favorable September monsoon, and removal of the wheat embargo is foreseen.

## The WEATHER

Daily Bulletin Published by the Victoria Meteorological Department.

Victoria, Sept. 28.—5 a. m.—The barometer is slowly rising and fair weather may become general on the Pacific Slope. Fine, warm weather has again prevailed in the interior.

## KING QUIT WHEN THROG AROUND HIM

(Continued from page 1.)

When I see my people, whom I have so much loved, surround their new king, with perfect cord and lead the fatherland to fresh glory and fresh greatness.

"My sacrifice is slight. I am prepared to fight at the head of the army in the interests of the country if the Greek Government and people should consider such service useful to the fatherland."

(Signed) "Constantine."

Constantine twice occupied the throne of Greece. His first reign began March 18, 1912, following the assassination of his father, George I., and continued until June, 1917, when he was forced by the demands of Great Britain, France and Russia to abdicate because of his pro-German sympathies. He was succeeded by his second son, Alexander, who was nominated by the deposed monarch and who had promised to carry out Constantine's policies, despite Allied demands to the contrary. For three years Alexander reigned in name only. Then his tragic death in 1920, due to the bite of a pet monkey, again turned the spotlight on Constantine, who spent the intervening three years in exile with his large family. A plebiscite had shown that the Greek nation was insistent upon the return of Constantine to the throne, and while the Allied Governments continued to exert every pressure at their command to prevent his reascension, the former King returned to Greece in December, 1920, amid scenes of the wildest enthusiasm.

Educated by Germans.

Constantine was born August 3, 1868, and obtained his education at the German military academy at Berlin. Once, in 1905, he was dismissed as commander of the Greek army because of popular clamor against him, but he became a national hero in the Balkan War of 1912, when he led a Greek army to the capture of Salonica from the Turks. In consequence of this achievement he was awarded the popular title of "The Liberator."

George Eldest Son.

Prince George is the eldest son of Constantine. He also was pro-German and was excluded from succession by the Allied terms which compelled his father's abdication in 1917. He accompanied the royal party to Asia Minor in 1921 and was a member of the staff of the Greek commander, General Papoulas. George was born in July, 1894, and married Princess Elizabeth of Rumania in the Spring of 1921.

The only other son of Constantine is Prince Paul, born in December, 1901.

Four Brothers.

While Prince George has been regarded as heir-apparent since Constantine's return to the throne, the deposed monarch also has four brothers who were considered eligible for kingly honors. These, in the order of succession, are Prince George, after whom the Crown Prince was named, born in 1895; Prince Nicholas, born in 1872; Prince Andreas, born in 1862; and Prince Christopher, born in 1858. Christopher's wife is the former Mrs. M. H. Leeds, widow of the American "Tin-pate King."

## FIRST PHASE OF REVOLUTION ENDS

(Continued from page 1.)

King Constantine's manifesto, announcing his abdication in favor of his eldest son, Prince George, at first intended to resist the insurrectionary movement, his generals and Prince Nicholas, his brother, advising such a course, but the monarch soon recognized the impossibility of making an effective resistance and the counter-revolutionary preparations were ordered stopped.

Civilians Joined Move.

The next step was taken by the civilians. The leaders of the Venizelist party met the leaders of the military movement and held a conference at which the organization of a new Government and the dynamic were discussed. Even the question of proclaiming a republic, if such a step seemed necessary, was discussed.

General Nider will be called to the premiership of the new Government with former Foreign Minister Parapanos becoming Foreign Minister, unless Mr. Corionis should resume this ministry, with ex-Finance Minister Alexander Diomedes again becoming Minister of Finance.

## CONSTANTINE'S YOUNGEST SON NOT PRISONER

London, Sept. 28.—The report that Prince Paul, youngest son of former King Constantine of Greece, is a prisoner of revolutionaries on board the schooner Elli is without foundation, according to a Reuters dispatch.

## JOCKEY CLUB STAKES-WON TO-DAY BY LADY JUROR

London, Sept. 28.—(Canadian Press Cable)—The Jockey Club Stakes, valued at over \$10,000, run to-day at the Newmarket meeting over the last mile and three-quarters of the Cae-awitch course, proved to be an easy win for S. Tattersall's three-year-old filly Lady Juror, by Son-in-Law out of Lady Josephine, who started a hot favorite at 5 to 1 against and won by four lengths.

James A. De Rothschild's Baton Rouge, a three-year-old colt by Lemberg, out of Cross As Two Sticks, finished second, beating Lord Derby's Glorious, a four-year-old colt by Swinford Assurance, by three lengths for place. Eight ran. Baton Rouge was quoted at 6 to 1 against, while Glorious's starting price was 100 to 1 against.

## HOSPITALS OF NEW YORK GIVEN FLAGLER MONEY

New York, Sept. 28.—Three local hospitals, St. Luke's, New York, and the Presbyterian, will get half the estate of John H. Flagler, former iron and steel manufacturer, which is estimated at \$2,000,000 according to the will, filed to-day for probate.

## INDIAN PROTEST AGAINST BRITISH TROOPS AT STRAITS

Ahmedabad, British India, Sept. 28.—A large meeting was held here yesterday at which a resolution was adopted protesting against Great Britain sending forces to the Dardanelles and Constantinople. During the meeting threats were made to 'help the Turks by joining them on the battlefield' if war should be declared against Turkey.

Constantinople, Sept. 28.—Venizelists are said to be in control of the Island of Syria in the Greek Archipelago. An important cable station is situated on the Island.

### FAMOUS

## OUTLINE OF HISTORY

### The Romance of Mother Earth

TO-DAY'S INSTALMENT—16

### The Cave-Man: An Extinct Race

In the time of the Third Inter-glacial period the outline of Europe and Western Asia was very different from what it is to-day. Vast areas to the west and northwest which are now under the Atlantic waters were then dry land; the Irish Sea and the North Sea were river valleys. Over these northern areas there spread and receded and spread again a great ice cap such as covers central Greenland to-day.

This vast ice cap, which covered both polar regions of the earth, withdrew huge masses of water from the ocean and the sea level consequently fell, exposing great areas of land that are now submerged again. The Mediterranean area was probably a great valley below the general sea level, containing two inland seas cut off from the general ocean.

#### The World 50,000 Years Ago.

The climate of this Mediterranean basin was perhaps cold temperate, and the region of the Sahara to the south was not then a desert of baked rock and blown sand, but a well watered and fertile country. Between the ice sheets to the north and the Alps and Mediterranean Valley to the south stretched a bleak wilderness, whose climate changed from harshness to a mild kindness and then hardened again for the Fourth Glacial Age.

Across this wilderness which is now the great plain of Europe, wandered a various fauna. At first there were hippopotami, rhinoceroses, mammoths and elephants. The saber-toothed tiger was diminishing toward extinction. Then as the air chilled the hippopotamus and then other warm-loving creatures ceased to come so far north, and the saber-toothed tiger disappeared altogether. The woolly mammoth, the woolly rhinoceros, the musk ox, the bison, the aurochs and the reindeer became prevalent, and the temperate vegetation gave place to plants of a more arctic type. The glaciers spread southward to the maximum of the Fourth Glacial Age (about 50,000 years ago), and then receded again.

In the earlier phase, the Third Inter-glacial period, a certain number of small family groups of men (Homo Neanderthalensis) and probably of sub-men (Eoanthropus) wandered over the land leaving nothing but their flint implements to witness to their presence. They probably used a multitude and variety of wooden implements also; they had probably learned much about the shapes of objects and the use of different shapes from wood, knowledge which they afterward applied to stone, but none of this wooden material has survived.

We can only speculate about its forms and uses.

As the weather hardened to its maximum of severity, the Neanderthal men, already it would seem acquainted with the use of fire, began to seek shelter under rock ledges and in caves—and so leave remains behind them. Hitherto they had been accustomed to squat in the open about the fire, and near their water supply. But they were sufficiently intelligent to adapt themselves to the new and harder conditions. As for the sub-men, they seem to have succumbed to the stresses of the Fourth Glacial Age altogether. At any rate, the rudest type of Palaeolithic implements presently disappear.

Not merely man was taking to the caves. This period also had a cave lion. These creatures had to be driven out of the caves and kept out of the caves in which these early men wanted to squat and hide, and no doubt fire was an effective method of eviction and protection. Probably early men did not go deeply into the caves, because they had no means of lighting their recesses. They got in far enough to be out of the weather and stored wood and food in odd corners. Perhaps they barricaded the cave mouths. Their only available light for going deeply into the caverns would be torches.

What did these Neanderthal men hunt? Their only possible weapons for killing such giant creatures as the mammoth or the cave bear, or even the reindeer, were spears of wood, wooden clubs, and those big pieces of flint they left behind them, the "Chellean" and "Mousterian" implements; and probably their usual quarry was smaller game. But they did certainly eat the flesh of the big beasts when they had a chance, and perhaps they followed them when sick or when wounded by combat, or took advantage of them when they were bogged or in trouble with ice or water. (The Labrador Indians still kill the caribou with spears at awkward river crossings.)

At Dewlish, in Dorset, an artificial trench has been found which is supposed to have been a Palaeolithic trap for elephants. We know that the Neanderthals partly ate their kill where it fell; but they brought back the big marrow bones to the cave to crack and eat at leisure, because few ribs and vertebrae are found in the caves, but great quantities of cracked and split long bones. They used skins to wrap about them and the women probably dressed the skins.

We know also that they were the right—But while the back parts of

the little tribe Mr. Worthington Smith described, there has been substituted, therefore, a family group under the leadership of one Old Man, and the suggestions of Mr. Atkinson as to the behavior of the Old Man have been worked into the sketch.

Mr. Worthington Smith describes a squatting place near a stream, because primitive man having no pots or other vessels, must needs have kept close to a water supply, and with some chalk cliffs adjacent from which flints could be got. The smoke was black, and the fire was of great importance, because fires once out were not easily relit in those days. When not required to blaze it was probably banked down with ashes. The most probable way in which fires were started was by hacking a bit of iron pyrites and flints amidst dry dead leaves; concretions of iron pyrites and flints are found together in England where the gault and chalk approach each other. The little group of people would be squatting about amidst a litter of fern, moss, and such-like dry material. Some of the women and children would need to be continually gathering fuel to keep up the fires. It would be a tradition that had grown up. The young would imitate their elders in this task. Perhaps there would be rude wind shelters of boughs on one side of the encampment.

### BUSINESSMEN

### TO START WORK

### AT THE Y.M.C.A.

Will Begin Classes to Keep Fit October 2

Gymnasium classes for business men, professional men and younger men will commence at the Y. M. C. A. October 2, it was announced at the "Y" headquarters to-day. The business men's classes, for men over thirty-five, will meet Mondays and Thursdays at a quarter past five, the young business men's classes Tuesdays and Fridays at the same hour and the morning business men's classes on Mondays and Thursdays at half-past ten. The men's evening class will meet Tuesdays and Fridays at a quarter past eight and a special class for busy men will be held Mondays and Thursdays at a quarter past six. The gymnasium leaders' class will meet at a quarter past seven on Tuesdays. W. S. Maguire and Archie McKinnon will direct the gymnasium classes.

It is expected that a large number of business men will join the "Y" during the next few weeks, so as to keep fit during the winter months when it is difficult to get out in the open. A couple of hours' work in the gymnasium each week keeps a man in excellent physical condition, "Y" members declare.

### JOINT RECITAL AROUSES INTEREST

Beautiful Numbers Chosen for Huntley-Green-Hicks Concert

Few musical events scheduled for the opening of the winter season are being anticipated with keener interest than the recital to be given by those popular artists, Mrs. Gertrude Green and Mr. Gideon Hicks. This joint recital, which marks the opening of the Ladies' Musical Club's attractive winter programme is to be given at the Capitol Theatre on October 5.

Mrs. Green's numbers will include the Brahms Rhapsody in E Flat and a group of modern compositions, notably a Scriabin Prelude, Debussy's exquisite "Jardins Sous La Pluie," and a rhapsody by Dohnanyi, none of which she has played in public before.

Mr. Hicks will include among his numbers the famous aria "Credo" from Verdi's opera "Otello." This is one of the biggest arias written for the baritone voice.

Another group will be "Beau Soir," Debussy's "Bonjour Suzon," Debussy's "The Sea Hath Its Pearls," Masey. By request he will also sing "It Is Enough," from Elgar's "Mendelssohn." The box office opens on October 2, but mail orders may be sent in now.

### WOULD BRING DUTCH SETTLERS

Baron Sandberg Visits City From The Hague

To the number of Dutch investigators who have recently visited British Columbia looking into opportunities for immigrants to Canada from the Netherlands can now be added the names of Baron and Baroness B. V. Sandberg, of the Hague, who were in the city Tuesday, accompanied by Commissioner Thomas Gelliey, of the Canadian Immigration Department.

"If any large number of Hollanders were to be placed in the United States it would jam the quota fixed by that government, and make it difficult for Dutch travellers to spend any time in that country," said the Baron, "and my government believes that from a farming standpoint Canada, particularly British Columbia, would be the best place for Dutch farmers to settle."

Baron Sandberg came to Victoria for the purpose of laying his plans before the government, and will promise to settle 500 Dutch farmers in this province at an early date.

So impressed was the Canadian government with the scheme that Commissioner Gelliey was appointed to accompany the Baron across Canada, and to make his trip one of pleasure as well as business.

policy is essential is beyond my comprehension. Our national debt in 1914 was \$288,000,000. To-day it is over \$2,300,000,000. Against this liability stands in the national books the natural resources of Canada and the ability of its people, present and future, to turn them into wealth and industrial and trade expansion. This means work to wrest from nature the hidden wealth which will, when converted, lessen the national burden and provide prosperity to the individuals comprising the country's citizenship.

In my opinion, this constitutes perhaps the most vital question confronting Canadians to-day. We have huge railway systems which can only be maintained by traffic and increased traffic can only be secured by agricultural expansion in the West, the proper utilization of our resources in mines and timber, and consequent industrial expansion in the East. For years it has been the policy of the Canadian Pacific to colonize actively and settle the lands of the company, and since its incorporation more than \$50,000,000 has been spent with this object directly in view. Further developments cannot be accomplished without large expenditures, but these expenditures should be unhesitatingly made.

Agencies.

"In addition to the Governments of the Dominion and the Provinces and the company, other active colonization agencies have been the Immigration Army and the Bernardo Home, and recently there has come into being the Western Canadian Colonization Association, whose activities in conjunction with the already established agencies should, with proper Government support, have far-reaching and beneficial effects.

"Understand that the Government intends to have final conferences with the various public bodies and others, including representatives from foreign countries, in Ottawa next month, and as a result of this active measures will, I think, be put in operation.

United States.

"A most casual consideration of the history of the United States since the Civil War should convince anyone of the necessity of such a policy. The American republic at the close of the Civil War had a population of 31,000,000, divided into 16.1 per cent. urban population and 83.9 rural. The conclusion of hostilities meant the demobilization of an enormous number of men and led to serious unrest due to their failure to secure employment. The collapse of the fictitious industrial activity which had existed during the war culminated in the panic of 1873, when the United States currency was at a discount of from 18 to 23 per cent. in Canada.

The vast areas of prairie lands in the Middle and Western States were, in consequence, opened to homesteaders. Every effort was made by the Government to induce soldiers to move west and take up lands as part of an active colonization policy was followed. In consequence of this policy over 2,500,000 immigrants entered the United States between 1860 and 1875, and together with the natural increase in population made an aggregate increase of approximately 8,000,000. A broad, and perhaps too broad, policy was adopted, and no restrictions against immigration were imposed until their population had reached over 100,000,000, and their free homestead lands had been exhausted.

Figures.

"In the ten years from 1911 to 1921 the total immigration into Canada was 2,122,000 and the natural increase in population was 1,100,000. Notwithstanding this the total population of Canada was only increased during the ten years by 1,500,000. During the year 1920, 117,000 people entered Canada and 90,000 emigrated to the United States. Our national debt is approximately \$270 per capita and the interest on it is \$12 per capita. And there is one mile of railway in operation in Canada for every 236 persons, and in the four Western provinces for every 110 persons. In excess of 25,000,000 acres of land fit for settlement lie within a distance of fifteen miles on each side of existing railways in the three prairie provinces. With these conditions confronting us what other course is open save to make colonization and the development of these resources the foundation for the future development of Canada? The need for action is made doubly apparent when it is considered that during the first six months of the present year less than 50 per cent. in number of immigrants entered Canada than during the same period of 1921."

Debt.

"Why it should be considered even doubtful that a forward immigration

## HEAD-OF-NAVY- LEAGUE VISITS

(Continued from page 1.)

adian Club luncheon at the Empress Hotel, and to-morrow afternoon Mrs. Curtis Sampson will preside at the L. O. D. E. tea at the Empress Hotel in honor of Mrs. Harris.

### Unity of Empire.

"I have only one story to tell, and that is 'Empire work,'" said Mr. Harris. In this connection he says he believes in training the young to take their proper position in the nation's work. He thinks that boys should be trained for the peaceful vocations of the sea in Britain's merchant marine, and that they should be adequately equipped to fight for the protection of home and country when occasion demands.

"I am not talking Navy-for war, but for the adequate common sense protection of that which is fundamentally the basis of your liberty. Canada has 13,000 miles of coast line, which is equal to half the earth's circumference. We possess about 112,000 square miles of area greater than the United States, with Alaska included. People say defence invites trouble, but I say that what invites trouble is possessing something that the other fellow wants to take from you," said Mr. Harris.

### Some Significant Facts.

We have the largest cattle locks, 300,000,000 acres of arable land, of which only 60,000,000 are under cultivation. We supply the world with 90 per cent. of its cobalt; 80 per cent. of its asbestos; 55 per cent. of its nickel; 22 per cent. of its pulpwood; 20 per cent. of its lumber; 20 per cent. of its cured fish; 18 per cent. of its oats; 15 per cent. of its potatoes; 12 per cent. of its silver; 11 per cent. of its wheat; 11 per cent. of its barley; and 4 per cent. of its gold and copper.

During the war our eight million people in Canada subscribed nearly two and a half billion dollars, or \$294 per capita, the speaker continued. "A country which has done so nobly is entitled to look after its protection," he said.

### Losses At Sea.

Mr. Harris called attention to the fact that \$475 merchant marine vessels went down during the war, of which the British losses were 2,000. Besides that, 675 fishing vessels were lost and 1,855 vessels were damaged seriously.

### Care of Dependents.

The number of British merchant seamen who lost their lives totalled 12,315, leaving about 50,000 dependents. Canada had 12,000 men in the Atlantic service, of whom 11,000 were

recruited in Canada. There is no pension for the women and children of these men," he stated.

"The Navy League undertakes the care of these dependents, and they are made a first charge on the organization's activities. This big responsibility is not realized so much on the Pacific as it is on the Atlantic, and in addition to this work the Navy League undertakes to look after the comfort of the lonely and transient sailor from all parts of the world.

### TRANS-PACIFIC MAIL.

The trans-Pacific mail sailings have been listed for September. The schedule and closing time runs as follows: President Jackson—Mails close Sept. 2, due at Yokohama Sept. 14, Shanghai Oct. 5, Hongkong Oct. 20. Empress of Russia—Mails close Sept. 7, due at Yokohama Sept. 18, Shanghai Oct. 2, Hongkong Oct. 22. Empress of Australia—Mails close Sept. 15, due at Yokohama Sept. 24, Shanghai Oct. 5, Hongkong Oct. 20. Empress of America—Mails close Sept. 22, due at Yokohama Sept. 31, Shanghai Oct. 12, Hongkong Oct. 27. Empress of Asia—Mails close Oct. 6, due at Yokohama Oct. 16, Shanghai Oct. 29, Hongkong Oct. 20. Australia and New Zealand. Tahiti—Mails close Sept. 4, 4 p. m., via San Francisco. Ventura (Australia only)—Mails close Sept. 16, 4 p. m., via San Francisco. Niagara—Mails close Sept. 23, 3:30 a. m., direct. Maunani—Mails close Oct. 3, 4 p. m., via San Francisco.

## FRECKLE-FACE

Sun and Wind Bring Out Ugly Spots. How to Remove Easily.

Here's a chance, Miss Freckle-face, to remedy for freckles with the guarantee of a reliable concern that will not cost you a penny unless it removes the freckles; while if it does give you a clear complexion the expense is trifling.

Simply get an ounce of Othine—double strength—from any druggist and a few applications should show you how easy it is to rid yourself of the homely freckles and get a beautiful complexion. Rarely is more than one ounce needed for the worst case. Be sure to ask the druggist for the double strength Othine as this strength is sold under guarantee of money back if it fails to remove freckles. (Adv.)

# News from the Ocean Lanes

## CHINESE JUNK LEAVES PORT ON EXHIBITION TRIP

### Capt. George Waard Takes Unusual Craft to Nanaimo

In tow of the Gardner tug Edna Grace the Chinese junk Amoy, which on September 19 completed a remarkable voyage of five thousand miles from Shanghai, and which has been the centre of waterfront interest for the past nine days, left her berth at the head of the Inner Harbor for Nanaimo and Vancouver. Capt. George Waard, veteran of many seas, who conceived the idea of building the junk at Amoy and who sailed her across the Pacific to this port, plans to place the junk on exhibit at various ports on the coast. After a short stay at Nanaimo, Capt. Waard will take his novel craft across the Gulf to Vancouver, and will later go to Seattle, Bellingham and Tacoma, and on to other California ports.

### May Go to Atlantic.

His plans are as yet indefinite, but he may subsequently pilot his junk through the Panama Canal and exhibit her on the Atlantic coast. Many hundreds of people boarded the craft here during the period she has been moored at the Causeway and the greatest interest has been evinced in her since she completed her remarkable cruise. The crew of the junk Amoy is now composed of Capt. Waard, his Chinese wife and their nine-year-old son "Bobbie." The three members of the original crew, Chan Tai, Leo Fook and Wong Fook were refused admittance into the country under the provisions of the Canadian immigration regulations, and are being returned to China to-day on the liner Empress of Australia.

## AEROPLANE BROUGHT FOR WORLD FLIGHT TO JERICO STATION

Vancouver, Sept. 28.—R. M. S. P. steamer Glamorganshire, Captain Macey, is in with 700 tons of continental freight, including a crated aeroplane marked "Round the World Flight," and booked to Major W. T. Blake, care of the Jericho Beach Air Station. It is understood that Major Blake has given up the flight machine will be used in the Jericho Beach service.

Canadian National Railways—Old Country passengers who are particularly as to the kind of treatment they receive are using the "Continental Limited" electric-lighted, all-steel train across Canada, carrying drawing room, compartment, observation cars and standard tourist sleeping cars. Reservations and All details arranged. Tourist and Travel Bureau, 211 Government Street.

## Junk Amoy Leaves for Nanaimo on Exhibition Cruise

## SEASON'S FIRST GRAIN FROM B. C. COAST VIA PANAMA

### SS. Glamorganshire First to Load Prairie Grain in Vancouver Elevator

Vancouver, Sept. 28.—On October 28, 1921, the first loadings of the 1921-22 grain flow through Vancouver were made. More than a month earlier this year there are 51,000 tons bound to the United Kingdom, 5,500 tons to the Orient, and grain men are refusing to take offered wagers that 400,000 bushels or over 100,000 long tons will be booked by October 28 this year. Meantime grain is starting to move. On Tuesday it was expected that the honor of loading the first lot would fall to the Harbison Direct Line steamer Craftsman, but she lost it by diverting to Nanaimo to coal. She is due here Friday. The Royal Mail Steam Packet Line therefore will capture the honor. Its steamer Glamorganshire is now in port and will load about 600 tons of wheat.

### The Blue Funnel Line has taken the medal for loading the first Oriental grain.

On Tuesday 1,000 tons were booked on the steamer Ixion, now in port, by Lloyd Craig, and yesterday loading commenced.

## PIERCE TO ENTER PACIFIC SERVICE

### Pacific Mail Boat Will Be Commanded by Capt. H. L. Jones

San Francisco, Sept. 28.—Captain H. L. Jones, one of the oldest skipper in point of service in the Pacific Mail, is to take out the company's new liner President Pierce, which sails here October 2, on the Oriental run. Captain Jones recently was on the Wolverine State prior to the time the vessel was laid up and since then he has made one round trip on the inter-coastal liner Venezuela. Captain Jones, accompanied by First Mate Hansen and Chief Engineer McKevitt, left last night overland for New York to bring the steamer Corinto to the Pacific Coast. The vessel is due to sail from the East Coast on October 4. The T. K. K. liner Persia Maru from the Orient and the Union Line steamer Maunani from New Zealand are due to arrive here Sunday.

## Ships at a Glance

Ships to Arrive. Sept. 28. President Madison. Orient. Oct. 2. Empress of Canada. Orient. Oct. 2. Thalybius. Orient. Oct. 14. Alaska Maru. Orient. Oct. 19. Empress of Russia. Orient. Oct. 22. Emp. of Australia. Orient. Sept. 28. Africa Maru. Orient. Oct. 21. Hawaii Maru. Orient. Oct. 21.

### COASTWISE SAILINGS.

For Vancouver. Princess Victoria arrives 11:45 p. m. daily. Princess Charlotte arrives 3:15 p. m. daily. Adelaide or Princess Mary arrives 7 a. m. daily. For Seattle. Princess Charlotte leaves 4:30 p. m. daily. Princess Victoria arrives 1:15 p. m. daily. For Prince Rupert. Prince George and Prince Rupert sail via Seattle Sundays and Wednesdays at 11 a. m. From Prince Rupert. Prince George and Prince Rupert on Sundays and Wednesdays at 7 a. m.

## TIDES AT VICTORIA

Sept. 28. Low water, 2:38 a.m., 2.7 ft. High water, 12:21 p.m., 7.8 ft. Low water, 7:15 p.m., 7.4 ft. High water, 1:18 p.m., 7.5 ft. Sept. 29. Low water, 3:36 a.m., 3 ft. High water, 1:08 p.m., 7.9 ft. Low water, 7:19 p.m., 7.1 ft. High water, 9:18 p.m., 7.2 ft.

## AUSTRALIA WILL SAIL TO-NIGHT

### Harry F. Bullen Will Be Passenger to Orient by C.P.S.S. Liner

The Empress of Australia was posted to leave Vancouver at noon and is expected to berth at Pier 3 here about 5 o'clock this evening. Complete her embarkation of passengers and mail for the Orient. Among the saloon passengers boarding the C. P. S. S. liner here will be Harry F. Bullen and daughter. Mr. Bullen is going to the Orient on a holiday tour, and expects to be away several months. On Tuesday the Empress of Australia was given a 200-hp. cruise in the Gulf and Straits to test out some new lubricating boxes which have been installed at Vancouver. The tests were entirely satisfactory, according to Capt. Edward Beetham, superintendent of C. P. S. S. ocean steamships to the Pacific.

### Unconfirmed Report.

In connection with the Empress of Australia, an unconfirmed report comes from Vancouver that she may be selected to take the round-the-world cruise originally intended for the liner Empress of Scotland. The Australia is one of the most palatial passenger vessels in the world and would be a fine ship for such a cruise. The temporary withdrawal of the ship from the Pacific run, however, would be entirely contingent upon the business offering on the trans-Pacific route during the winter. No announcement has been made by the company regarding the utilization of the Empress of Australia for a world cruise.

## VESSEL MOVEMENTS

Victoria, Sept. 27.—Arrived: Wheatland, Monte Carlo, Victoria, bound from Orient for Vancouver. Vancouver, Sept. 27.—Arrived: Glamorganshire, United Kingdom; Belfast Maru, Orient; Empress of Australia, trial trip. Tacoma, Sept. 27.—Arrived: Steel Navigator, New York; Africa Maru, Vancouver. Sailed: Mukilteo, San Francisco via ports; Chilliwack, Vancouver, B.C.; Eastholm, Vancouver, B.C. San Francisco, Sept. 27.—Arrived: Albertine, Vancouver; Sailed: Wilhelmina, Honolulu; Lyman Stewart, Seattle.

## RECORD RUN BY STEAM SCHOONER

### Everett Reaches Seattle 69 Hours Out from San Francisco

Seattle, Sept. 28.—A record run for a steam schooner from San Francisco to Seattle was made by the Everett, Capt. John Foidal, which arrived here yesterday after leaving the Bay City. Several months ago the Everett made an earlier record by running from San Francisco to Bellingham in sixty-seven hours. The Everett, which brought 900 tons of freight for Seattle and 200 for Tacoma, is to shift back here from Tacoma to-day to load lumber for San Diego. She is of the McCormick Steamship Company.

Capt. John A. O'Brien, a veteran mariner of the North Pacific, who for the past three years has been port captain for the Shipping Board in charge of a fleet of idle ships near Benicia, Cal., is in command of the motorship Culbulla en route to Nome. The Culbulla, a wooden vessel built at Olympia, is operated by the Leslie M. Conyn marine enterprises. Five days ago she was spoken off the Aleutian Islands.

Port Commissioner W. S. Lincoln and F. C. Marin, statistician and purchasing agent of the commission, returned yesterday from attending an international convention of the American Association of Port Authorities in Toronto. Mr. Marin was elected treasurer of the association. Commissioner George F. Cotterill and Engineer George F. Nicholson are to attend a Northwest rivers and harbors conference in Everett Friday and Saturday.

The Port Commission had approved a lease of harbor area in front of three lots on Harbor Island held by the Oregon-Washington Railroad and Navigation Company. The rental of the harbor area is \$1,650 a year.

### Forty thousand cases of salmon from Southeastern Alaska and a few boxes of fresh fish were brought here by the Admiral Rodman and the Admiral Nicholson.

## C.P.S.S. LINER TO BE RECONDITIONED FOR WINTER CRUISE

Empress of Scotland on Last Trip of Season; Will Go to Mediterranean

The Canadian Pacific liner Empress of Scotland sailed from Quebec last week for Southampton and Cherbourg on her last trip of the season on the St. Lawrence route. She will be reconditioned during a period of several months before starting on the second cruise to the Mediterranean. Under charter to Frank Clark, of New York, the Empress of Scotland will sail from New York on February 3 on a cruise which will occupy sixty-five days.

An increasingly large number of passengers are taking advantage of the Orient-to-Europe through service which was inaugurated by the Empress of Scotland early this summer. This new Canadian Pacific Empress express route to Europe is maintained by the Empress of Scotland, 25,000 tons, and the Empress of France, 18,500 tons, between Quebec, Cherbourg, Southampton and Hamburg.

By the way of the St. Lawrence River, with only four days on the Atlantic, this new service offers the shortest and most comfortable route to Europe. The Empress of Scotland, which is a chief cities of Great Britain and the continent, to London or Paris in a week, and to Berlin in nine days. The Canadian Pacific by means of its fastest and finest trains and steamships, links the Orient and Europe, via Canada, making the most complete and important service of this kind in the world. The new Empress of Australia and the Empress of Canada maintain the trans-Pacific link of this service.

### Canada is destined to largely benefit by the new highway between Europe and the Far East for which the Canadian Pacific Railway is responsible by making it possible to travel through rate via the Dominion from Liverpool to China and Japan as that of the Suez route. It means the diversion of an immense amount of traffic to the Dominion. The distance from Victoria and Vancouver to Yokohama or Hongkong is about 400 miles, shorter than the route via the Suez. The water journey from Quebec to Liverpool is about 400 miles shorter than from New York to Liverpool.

The Canadian Pacific by means of its fastest and finest trains and steamships, links the Orient and Europe, via Canada, making the most complete and important service of this kind in the world. The new Empress of Australia and the Empress of Canada maintain the trans-Pacific link of this service.

### ROYAL TO CONNECT WITH DAWSON BOAT

Advices received by E. J. Farr, agent to the White Pass and Yukon Route, are to the effect that the weather conditions on the Yukon are so favorable that passengers and freight could be handled to Dawson by leaving Vancouver September 30. This sailing will be taken by the C. P. R. steamer Princess Royal.

### Getting Too Fat? Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist for Marmola Prescription Tablets and follow directions. One dollar is the price of the world over. Get them from your own druggist or send price direct to Marmola Co., 4113 Woodward Ave., Detroit, Mich. By doing this you will be safe from harmful drugs and be able to reduce steadily and without starvation diet or tiresome exercise.

### Emerald—Oh, Monty, I've just thought of something. The anchor fell overboard some time ago and I forgot to tell you; do you suppose it could have caught on anything?

## EURYPYLUS IS NOW ON BERTH FOR THIS COAST

Blue Funnel Ship Due to Leave Liverpool October 7 for the Pacific

The Blue Funnel Line steamship Eurypylus, now on berth in the United Kingdom for North Pacific ports, is scheduled to sail from Liverpool on October 7, according to Dowdell & Co., Pacific Coast agents for the company.

The Eurypylus is expected to arrive out here about November 15 via the Panama Canal and San Francisco.

The Eurypylus will be the next vessel of the Blue Funnel Line to arrive here from the Orient. The vessel is due to leave Yokohama tomorrow and will arrive at this port on October 12 carrying freight and passengers.

On the same day the liner Ixion is scheduled to sail outward for the Orient. This is expected to be the last of the Blue Funnel Line's service of the company as the present plans call for the return of the ship to Liverpool from the Orient. She will be replaced on this route by the new turbine Achilles.

### BORN ABOARD SHIP; NAMED FOR SKIPPER

Quinn Madison Pang Came Into World on Board Admiral Liner

Seattle, Sept. 28.—Quinn Madison Pang, son of Mr. and Mrs. Sing S. Pang, of Hongkong, China, youngest of all the passengers ever carried across the Pacific Ocean by an Admiral liner, reached Seattle yesterday. The parents immediately labeled him Quinn Madison Pang, thus honoring the ship and her skipper, Capt. Thomas P. Quinn.

Captain Quinn, or "Fair Weather" Quinn, predicts a tremendous future for the boy. Just now the immigration folks are figuring out whether Quinn Madison Pang is an American citizen. He was born in foreign water on an American vessel, named for an American skipper, and he can howl like a genuine American kid.

Sympathetic Person—"Hallelu! What's the matter, little boy? Are you a sailor?"

Little Boy—"Yes, I am. I mighta known better'n to come out with Gran'ma. She's always losin' something"—Life.

## WELL'S "OUTLINE" MOST IN DEMAND

History Now Appearing in  
Times Leads in Book  
Popularity

Van Loon's "Mankind" and  
Strachey's "Queen Victoria"  
Come Next

New York, Sept. 28.—No better proof of the great interest the American public has in the personalities of famous men could be had than that offered by the list of books other than fiction which are most in demand and have been most in demand for months past at the bookstores and the public libraries.

Of the ten most popular works in the non-fiction field, as recorded in the Bookman's monthly tabulation, six are biography, autobiography or collections of sketches dealing with eminent personalities. Although the most popular book of all, Wells' "Outline of History," is not properly biography, its emphatic portraiture of historical figures has created wide discussion.

It is fair to assume, since the Wells book and Van Loon's "Story of Mankind" lead the list, that the public's interest in personalities is not founded altogether upon a thirst for gossip. There is behind it also a genuine interest in men in their relation to events. That assumption is further borne out by the presence of Lytton Strachey's "Queen Victoria" in third place. Strachey's book is not a string of anecdotes about the Queen. The background against which she moved is no less vividly

## Clogged-Up Liver Causes Headache

It's foolish to suffer from constipation, sick headache, biliousness, indigestion, and tired ailments when Carter's Little Liver Pills will end all misery in a few hours. Purely vegetable. Act gently on liver and bowels. Small Pill—Small Dose—Small Price.

recreated than the Queen herself. It is a book of more solid character than the "Mirror" books.

It is natural that "The Mirror of Washington" should lead in interest. "Painted Windows" and "The Mirrors of Downing Street," "The Glass of Fashion," which is more gossipy than the others, occupies last place.

This interest in personalities appears to be a national characteristic. It is evident not only in the books we read but in our politics. Our interest in foreign affairs is in large measure an interest in personalities also. The newspapers feed that interest and give it greater stimulation than does the European press.

It may surprise those who deplore the lack of serious reading in America that the fifth book among the ten is Professor James Harvey Robinson's "The Mind in the Making," which is a study of man's intellectual development.

As a matter of fact, the only title the presence of which is disturbing is "Outwitting Our Nerves." There must be many persons who have nerves or think they have and are worrying about it.

## WANT ARMISTICE HOLIDAY Veterans Will Memorialize Authority for Free Day on November 11.

At a joint meeting of delegates from ex-service organizations, held last night with Beaumont Bogs in the chair, regret was expressed that the Federal authorities had not declared November 11 a Dominion holiday. That this should be done, was the feeling of the gathering; and representations to that effect will be made to the proper authorities at Ottawa.

The meeting passed on to consider tentative arrangements in connection with the commemoration of November 11. A memorial service in the afternoon, and a community gathering at the Drill Hall later have been suggested for this occasion.

A committee composed of Messrs. Beaumont Bogs, S. McVie, T. Jones, P. Cameron and R. McNicol was appointed to get in touch with Lieut. Col. P. A. Robertson, officer commanding the Fifth Regiment to see if the plans could be carried into effect with the co-operation of the latter body.

The gathering was attended by delegates from the Army and Navy Veterans, the Veterans of France, the Canadian Legion, the British Campaigners, and the Grand Army of United Veterans.

Nell—"He actually told me I was dull."  
Dora—"I suppose you've convinced him of the contrary."  
Nell—"Certainly. I've cut him ever since."

## BABE IN THE WOODS WAS ENJOYING LIFE

Sitting at the foot of a tree stump, Jackie Williams, three-year-old son of Edward Williams, road foreman of Esquimalt district, greeted a search party that had been hunting for him for forty-eight hours with a simple but courtly dignity. He was hungry and would eat, intimated this modern Babe in the Woods. Despite the fact that Jackie stayed out in the bush near Palmer's Station since Tuesday noon until late yesterday afternoon, the little fellow was unharmed and apparently unharmed from his adventures. By day he held communion with the red squirrels and the robins, and at night he crawled under the bole of a great tree and slept. Food was the only real want in this woodland paradise, Jackie told his rescuers. Headed by Provincial constables, aided by a party from the

Princess Patricia Light Infantry, a search party that numbered well on to a hundred men, with trained blood hounds sought Jackie high and low. When he was found it was with in one mile of his own home, and a call from the rescue party was eagerly answered by the little adventurer, the bloodhounds loosed by A. H. Silk, of this city, taking the searchers near enough for the child's cries to be heard.

Do it The Times Want Ad. Way.

## DORMAN LAUNCHES

## His First Great Sale

"DORMAN NEEDS NO EXCUSE FOR THIS SALE"—During the past three years the public has been wearied of so-called Special Sales. While practically every other store was using this means to unload high-priced stocks, Dorman's carried on in a legitimate way, reducing our prices just as quickly as the markets permitted the replacing of stocks at lower prices and selling at all times at a fair price. Now that market conditions have become more normal and the public can more easily judge real values, we have decided to give the people of Victoria such an opportunity as they have not had heretofore to purchase their Fall and Winter needs from our entire stock of Men's and Boys' Clothing and Furnishings at prices that will ensure Genuine Value such as you have not known during eight years. ## DOMINION

The correct side on which to rest a harp, proved a point which threatened considerable delay during the making of "Blood and Sand" Rodolph Valentino's first Paramount star picture which will open at the Dominion Theatre for six days beginning to-day.

The harp was to be played by Nita Naldi in a passionate love scene with the star—and it had to be accurately done. Some said right, some said left. And as there was a difference of opinion, messengers were dispatched post haste to telephones. When the votes were finally counted the "Rights" won by an overwhelming majority. For a while, however, there was considerable doubt and although there may be only 3,000 harp players in the United States—it is certain that if Director Fred Niblo had allowed Nita Naldi to play it wrong—2,999 letters proclaiming the fault would be received. "Blood and Sand" was adapted by June Mathis from the story of Spanish life by Vicente Blasco Ibañez, author of "The Four Horsemen of the Apocalypse." It is a Fred Niblo production photographed by Alvin Wyckoff. Included in the cast are Lila Lee, Walter Long, George Field, Fred Becker, Leo White, Rose Rosanova, Charles Belcher, Gilbert Clayton and Jack Winn.

## CAPITOL

Bang! goes the revolver in a motion picture scene! The heroine pulls the trigger and the villain bites the dust!

How many cartridges are required to register this one scene and its effects? Just one? No, you're wrong—five!

At least that was the approximate number of blank shells consumed when the shooting scene in "The Siren Call," the Irvin Willat production for Paramount, featuring Dorothy Dalton, now playing at the Capitol Theatre, was filmed, and the prop-

## AMUSEMENTS TO-DAY

Columbia—"The Kick-Back," Playhouse—Show No. 4, "The Boy," Royal—"The Bohemian Girl," Capitol—"The Siren Call," Dominion—"Blood and Sand."

erty man has an empty cartridge box to prove it.

Here's the reason, as Director Willat explained it. First, there is a long shot of the scene, showing Miss Dalton fire the revolver at Mitchell Lewis, the villain, who is about to attack her, and kill him.

Then there is a close-up of Miss Dalton's face as she fires the shot. This meant another shell, so she could register the effect of the report. Then another close-up of Lewis as the shot is fired and he drops. Then a side view of the scene and of both respective players. Then a close-up of the baby, as it hears the shot and starts to cry in fright.

Then comes a close-up of the dog outside the door as he hears the shot and runs out of the scene. And perhaps all of these various scenes have to be rehearsed two or three times, especially the dog and baby scenes, for dogs and babies are hard to direct. The reports of the revolver were heard at intervals for three or four days about the studio and yet only one shot is recorded in the picture.

## The Chinese Junk

In the Inner Harbor has one point in common with the Philco Diamond Grid Battery—it is well built.

## "MIKADO" PLEASES LARGE AUDIENCES

Ever Popular Opera Presented at Royal Yesterday

It is very doubtful if Victoria has experienced in many years past a better season of comic opera than is at the present week being produced at the Royal Victoria by the American Light Opera Company. In recognition of the many fine attributes of this talented company each evening has witnessed large, responsive, and delighted audiences. Nor was there any diminution of appreciation or even a lesser attendance than was witnessed at yesterday's matinee when the ever continuing favorite, "The Mikado," was given. No matter when or how this opera—the most popular of all of Gilbert and Sullivan's operas—is produced—it is sure to draw large audiences who love its charms. But, of course, any company must make good, and it is no controversy when it is said that the American company has made good.

This organization is true to tradition, and one there is among its cast of principals, who, for a period of over thirty-five years, has played the part of "Ko Ko," bringing with him many experiences of Savoy productions. This is Ed Andrews. Naturally, with such an one included in the company transmission of part or parts must be brought with advantage to the company. Ed Andrews was splendid, and although his vocal powers are not, perhaps, as they once were, his "Tit Willow," and the ever-memorable lines, "The Flowers That Bloom in the Spring, Tra-La," were irresistibly delightful. His acting throughout was keenly relished. Paula Ayers, as "Katisha," a lady of equivocal age, but unequivocal temper, achieved great success, her singing and dramatic gifts were outstanding, and made a most favorable impression. Theo. Pennington, Jean Brandon and Ethel Cook, as "Yum Yum," "Pitti Sing" and "Peep-Bo," wards of "Ko Ko," were all very clever in the dainty requirements of the well-known characterizations. Miss Pennington as "Yum Yum" again gave much delight in her excellent vocal equipment. She certainly has established herself a favorite here. Carl Bundschu made a capital "Pooh-bah." He not only looked the part, but in his

fine baritone voice he has some beautiful tones, and this added much dignity to the character. "Nanki Poo," in love with Yum Yum, and son of the Mikado, was represented by the tenor, Harry Pfeil, was on the whole somewhat disappointing. His voice is vibrant and he sings in good style, but there was a tendency to force his tones, and there was something, too, in his sartorial "make-up" that got a little on one's nerves, for one could hardly fancy him as a wandering minstrel, or a son of Japan. George Olsen made a good Mikado, albeit his speaking voice and vocalism are not of distinguishing order, but he gave dignity and some amusement to his impersonation.

"Pleh Tush," a noble lord, has not a great deal to do, but he very well contributed to the excellence of the ensemble. Much praise must be bestowed upon the chorus work of this company, in freshness, vim, light and shade and dash, which taken all together are admirable. In the first act particularly praiseworthy were the men's choruses in attack and tone texture. Much can be said, too, of the artistic movements of all concerned principals and chorus, alike, were ever active, and in all they did there was much skill and taste displayed. The costuming and color schemes throughout are also worthy of much commendation. Clarence West, the conductor, guides his forces with adroitness and firmness.

## "THE KICK-BACK"

STARS HARRY CAREY

Cowboy Hero Wins Admiration at Columbia

That emerald-eyed monster, "Jealousy," takes on an international aspect in "The Kick-Back." Harry Carey's first great production to be released through his new affiliation with the Film Booking Offices of America and soon to be shown at the Columbia to-day. As "White Horse" Harry Carey becomes entangled with Mexican soldiers. A Mexican girl whom he befriended helps him escape from jail and gives him a locket, which he wears about his neck. When he returns home his own sweetheart, having been warned by Harry's enemies that he was paying attention to a Mexican girl, sees the locket and accepts as true the mouthings of his foes. Then enters the green-eyed monster and the excitement begins in earnest.

## "THE BOHEMIAN GIRL"

TO-NIGHT AND FRIDAY

Notable Selection for Third Opera Produced Here

The climax of the engagement of the American Light Opera Co. at the Royal Victoria Theatre will probably be reached to-night and to-morrow night in Balfe's melodious opera, "The Bohemian Girl" without doubt the heaviest and most tuneful of all the light operas. In fact "The Bohemian Girl" is so near grand opera that many grand opera companies include it in their repertoire and very few of the light opera companies attempt it. However, after hearing the splendid voices in the American Light Opera Company, the Victoria music lovers feel confident of their ability to stand the heavy roles in "The Bohemian Girl" and the record attendance is anticipated to-night and to-morrow.

Romantic charm, color, vivacity, melodic grace—these are the qualities that combine to make "The Bohemian Girl" a light opera masterpiece. And all of them will be admirably preserved in to-night's performance at the Royal Victoria Theatre.

Principals and chorus are both heard to better advantage than in "Robin Hood" or "The Mikado." It is a presentation pictorially as well as musically satisfying and well-mated, sparkling. And that the opera has lost none of its old power to sway an audience will be convincingly demonstrated.

The song hits that we all remember so well and that have made "The Bohemian Girl" an eternal success are "I Dream I Dwell in Marble Halls," "The Heart Bowed Down," "Then You'll Remember Me," "Bliss Forever Past" and "The Fair Land of Poland."

"The Bohemian Girl" will be sung to-night and Friday and the engagement will close with a matinee and evening performance on Saturday or another Gilbert and Sullivan success, "H.M.S. Pinafore."

## TO PRODUCE "THE STORM" AT ROYAL MONDAY

Writers, philosophers and know-it-alls have from time immemorial declared that the girl of unspoiled innocence, the girl without experience in meeting men, is the first to fall before the wiles of a polished artist in love making. The woman of the world is protected by her knowledge, they have contended.

But there is another kind of innocent girl, who isn't so susceptible in spite of her ignorance. This is the belief of Langdon McCormick, the man who wrote the stage success, "The Storm," and Reginald Barker, the famous producer, who directed the production.

She is the girl of the woods. Living in daily close communion with Nature, inspired by the clean atmosphere of the primitive world, and knowing no men but the straight, honest woodsmen and trappers, she somehow gains a protecting instinct against the "man from outside."

When he comes, instead of succumbing to his polished mastery as the girl of the farms or the small towns would do, she instinctively rejects him, though pleased with his attentions. The girl of the country town is not raised in so free and independent an atmosphere; she is brought up with confining influences which make her more desirous of the supposed freedom and wealth that the "city fellow" offers. But the girl of the forests has had nothing but freedom and Nature's own wealth of beauty all her life.

"The Storm" a Universal-Jewel special starring House Peters, and with Virginia Valli, Matt Moore, Josef Swickard and others in support, comes to the Royal Victoria Theatre on Monday next.

The action of "The Storm" was photographed against a background

of scenic beauty that is remarkable. House Peters brings to the leading role all the consummate art that has made him one of the outstanding figures on the screen to-day. It is safe to say that he has never had a better opportunity to show what he could do than was offered to him in "The Storm."

## PLAYHOUSE SCORES ANOTHER SUCCESS

Potted Opera, "The Boy," is Laugh-producer Throughout

Roars of laughter emanated from the Playhouse, Yates Street, last night, while the comedy potted opera "The Boy" was in progress, and people who were passing along the street stopped to listen to the strains of tuneful music.

"The Boy" is probably the best play yet staged by the popular local company under the direction of Reginald Barker. It is assured a crowd of house at the Playhouse for the

balance of this week, including the Saturday matinee. Every member of the company is a favorite with local theatre patrons and they all live up to their reputation as high class entertainers. From beginning to the end of the offering the audience is kept in a constant state of laughter. The situations are exuberantly funny, the acting is splendid, the singing a combination of delightful harmony and the stage settings of the very brightest. All in all, the play is a treat that no one should miss.

Unless studio reports and the evidence of many beautiful photographs taken on location are misleading, Mr. Borzage has not only "Nature Illustrated" Mr. Curwood's thrilling romance of the Great White North, but has scored another Cosmopolitan success, comparable with his "Humoresque."

Of course this romance of the northern wilds which comes to the Dominion Theatre next week, is a striking contrast to the crowded East Side, the bright lights of Broadway shown in "Back Pay," or the humors of "Get-Rick-Quick-Wallinford," which Mr. Borzage also made for Cosmopolitan Productions. But the same meticulous attention to detail and broad grasp of his subject which characterized Mr. Borzage's work in the big city studio, follow him into the great outdoors.

With a Cosmopolitan cast, headed by Alma Rubens, as the French-Canadian heroine of the Curwood story, and with Lew Cody as the heroic corporal of the Royal Mounted Police, Mr. Borzage spent twelve weeks in the Canadian Rockies. From Banff, Alberta, they followed the trail of the story to the veritable "Valley of Silent Men" which Mr. Curwood described so realistically. They lived in log cabins, camped with the Stony

tribe of Indians—some of whom Mr. Borzage enlisted in the company; shot the rapids of the Kipewa River, which runs into the Ottawa about 225 miles west and 100 miles north of Mount

They climbed the snow-clad peaks and skidded over the glaciers of the Canadian Rockies. No city-bred director could have overcome the obstacles which faced Frank Borzage on every hand. He is an American

born, and was reared among the mountains. Possibly his nativity helped him to realize the Curwood story on the screen in the spirit and amid the scenes in which the author wrote it.

## "VALLEY OF SILENT MEN" WILL COME TO DOMINION SOON

Frank Borzage, the celebrated director of Cosmopolitan Productions, went with his entire company to the Canadian Rockies, where he filmed James Oliver Curwood's famous story, "The Valley of Silent Men," amid the scenes which the author described so vividly in his novel.

Unless studio reports and the evidence of many beautiful photographs taken on location are misleading, Mr. Borzage has not only "Nature Illustrated" Mr. Curwood's thrilling romance of the Great White North, but has scored another Cosmopolitan success, comparable with his "Humoresque."

Of course this romance of the northern wilds which comes to the Dominion Theatre next week, is a striking contrast to the crowded East Side, the bright lights of Broadway shown in "Back Pay," or the humors of "Get-Rick-Quick-Wallinford," which Mr. Borzage also made for Cosmopolitan Productions. ## Financial Papers Reply to Enquiries

(Reprint from "Saturday Night")

A. P. R. Toronto, Ont. Asking questions is the beginning of wisdom, and you need not be ashamed of your ignorance of basic financial matters when you are trying to dispel it. The first mortgage bonds of the Canadian Paperboard Company, Ltd., are an excellent investment for part of a woman's capital. Bonds fluctuate in value just as stocks do, but the return on them is constant, and in the event of a Company failing they are a first charge on the assets of the Company before preferred and common stocks. Occasionally you see preferred and common stocks bringing more in the market than bonds of the same company because the company is so strong that it carries with ease the bonds and is able to pay a higher return on the preferred than on the bonds and pay still higher on the common in prosperous years than on either of the others. But the bonds come first and in lean years the bond interest is paid when dividends are passed.

Special Prospectus on Request.
